CHAPTER NO. 539

[SB 346]

AN ACT ALLOWING THE BOARD OF HEALTH AND ENVIRONMENTAL SCIENCES TO TEMPORARILY MODIFY WATER QUALITY STANDARDS; AMENDING SECTIONS 75-5-301 AND 75-5-302, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

STATEMENT OF INTENT

A statement of intent is provided for this hill because it allows the board of health and environmental sciences to adopt rules establishing temporary water quality standards.

The principle behind establishing temporary water quality standards is that there are Montana surface and ground waters that are of lower quality than the applicable water quality standards. The legislature intends that the temporary water quality standards may not he established for waters that are impaired but still support their beneficial uses. Temporary standards may be established only when substantive information indicates that the water body or water segment does not support a designated use for its classification. The goal of establishing temporary standards is to improve the quality of the water to the point at which it supports the beneficial uses for its classification.

The establishment of temporary standards provides a legal basis that facilitatos improvement of the water quality for those waters and allows, in limited circumstances, discharges to those waters. The rules must reflect the legislature's intent that establishing temporary water quality standards will trigger development and implementation of a plan with the overall goal of continuously improving the quality of the water during the period of the modification to the point that beneficial uses are supportod. At no time during the period of a modification should a discharge be allowed that will cause water

quality to become worse than the quality of the water body or segment prior to the discharge.

The legislature recognizes that persons may desire to commence discharging to the water body or segment for which a standard has been temporarily modified during the period of the modification. Any discharges that are allowed should not in any way slow or impede the improvement of the water body or segment.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 75-5-301, MCA, is amended to read:

"75-5-301. Classification and standards for state waters. Consistent with the provisions of 75-5-302 through 75-5-307 and 80-15-201, the board shall:

(1) establish and modify the classification of all waters in accordance with their present and future most beneficial uses;

(2) formulate standards of water ~~purity~~ *quality* and classification of water according to its most beneficial uses, giving consideration to the economics of waste treatment and prevention. *When rules are adopted regarding temporary standards, they must conform with the requirements of [section 3].*

(3) review, from time to time at intervals of not more than 3 years, established classifications of waters and standards of water ~~purity~~ *quality* and classification;

(4) adopt rules governing the granting of mixing zones, requiring that mixing zones granted by the department be specifically identified, and requiring that mixing zones have:

(a) the smallest practicable size;

(b) a minimum practicable effect on water uses; and

(c) definable boundaries;

(5) adopt rules implementing the nondegradation policy established in 75-5-303, including but not limited to rules that:

(a) provide a procedure for department review and authorization of degradation;

(b) establish criteria for the following:

(i) determining important economic or social development; and

(ii) weighing the social and economic importance to the public of allowing the proposed project against the cost to society associated with a loss of water quality; and

(c) establish criteria for determining whether a proposed activity or class of activities will result in nonsignificant changes in water quality for any parameter in order that those activities are not required to undergo review under 75-5-303(3). These criteria must be established in a manner that generally:

(i) equates significance with the potential for harm to human health or the environment;

(ii) considers hoth the quantity and the strength of the pollutant;

(iii) considers the length of time the degradation will occur; and

(iv) considers the character of the pollutant so that greater significance is associated with carcinogens and toxins that bioaccumulate or biomagnify and lesser significance is associated with substances that are less harmful or less persistent.

(6) to the extent practicable, ensure that the rules adopted under subsection (5) establish objective and quantifiable criteria for various parameters. These criteria must, to the extent practicable, constitute guidelines for granting or denying applications for authorization to degrade high-quality waters under the policy established in 75-5-303(2) and (3).

(7) adopt rules to implement this section."

Section 2. Section 75-5-302, MCA, is amended to read:

"75-5-302. Revised classifications not to lower water quality standards — exception. *(1)* ~~In~~ *Except as provided in subsection (2), in* revising classifications or standards or in adopting new classifications or standards, the board may not ~~so~~ formulate standards of water ~~purity~~ *quality* or classify any state water ~~as to lower~~ *in a manner that lowers* any water quality standard applicable to any state water below the level applicable under the classifications and standards adopted ~~except upon a finding~~ *unless the board finds* that a particular state water has been classified under a standard or classification of water quality that is higher than the actual water quality that existed at the time of classification and only if the action is taken pursuant to 75-5-307.

(2) Establishment of a temporary water quality standard or classification does not require a finding that the affected state water was classified under a standard or classification that was higher than the actual water quality that existed at the time of the prior classification."

Section 3. Temporary water quality standards. (1) The board may on its own, upon recommendation of the department, or upon a petition for rulemaking by a person, including a permit applicant or permittee, temporarily modify a water quality standard for a specific water body or segment on a parameter-hy-parameter basis in those instances in which substantive information indicates that the water body or segment is not supporting its designated uses. When the board adopts temporary standards, the goal is to improve water quality to the point at which an additional beneficial use or uses are supported.

(2) As a condition for estahlishing temporary water quality standards for a particular water hody or segment, the department or the petitioner, as applicable, shall prepare a support document and implementation plan for use by the board in determining whether to adopt a proposed temporary water quality standard.

HeinOnline -- 1995 vol. III 2747 1995

(3) If a person petitions for rulemaking under this section, the petition must specifically describe the affected state water, the existing ambient water quality for the parameter or parameters at issue, the water quality standard or standards affected, and the temporary modifications sought. Within 180 days after the board grants a petition to initiate rulemaking, the petitioner shall prepare and submit to the board and the department a proposed support document and implementation plan that sets forth:

(a) the water quality limiting facters affecting the water body or segment;

(b) the existing heneficial use or uses and the beneficial use or uses considered attainable in the absence of the water quality limiting factors;

(c) an implementation plan to eliminate the water quality limiting factors to the extent considered achievable; and

(d) a schedule for implementing the plan that ensures that the water quality standards for the parameter or parameters at issue are met as soon as reasonably practicable and in no event later than the time allowed by the board in the temporary standard.

(4) Upon the board's adoption of a temporary water quality standard, the department shall ensure that reasonable conditions and limitations designed to achieve compliance with the implementation plan are established in appropriate discharge permits.

(5)(a) A temporary modification of a water quality standard may not result in adverse impacts to existing beneficial uses or be established for a total period longer than 20 years.

(b) During the period of the temporary modification, the hoard may not allow a discharge that will cause overall water quality to become worse than the overall quality of the water body or segment prior to the discharge.

(6) If a state water is designated as having temporary standards, the department shall report to the board at least every 3 years or upon request of the board regarding whether adequate efforts have been made to implement the plans submitted as the basis for the temporary standard.

(7) The board shall review temporary standards at least every 3 years at a public hearing for which notice and an opportunity for comment have been provided. The board may terminate the temporary standard based on information submitted at the time of its review that the applicant is not complying with the approved implementation plan.

(8) The hoard shall terminate a temporary standard for a parameter if:

(a) values for the modified parameter or parameters improve to conditions that support all designated uses for that classification;

(h) the state water for which the temporary standard is adopted is reclassified as provided for in 75-5-302; or

(c) the plan submitted in support of the temporary water quality standard is not being implemented according to the plan's schedule or modifications to that schedule made by the board or department.

HeinOnline -- 1995 vol. III 2748 1995

(9) The board may modify the plan if the permittee submits convincing evidence to the board that the plan needs modification. The board may not extend the plan beyond a total period of 20 years.

(10) If a temporary standard for a parameter in a particular state water is terminated because the plan submitted in support of the temporary water quality standard is not being implemented according to the plan's schedule or modifications to that schedule made by the board or department, a person may request a new temporary standard by submitting both a petition for rulemaking and a plan that meet the requirements of subsections (2) and (3). However, the board may not adopt another temporary standard for the parameter in the state water that would cumulatively be in effect for a total period longer than 20 years for the parameter in the state water.

Section 4. Codification instruction. [Section 3] is intended to be codified as an integral part of Title 75, chapter 5, part 3, and the provisions of Title 75, chapter 5, part 3, apply to [section 3].

Section 5. Severability. If a part of [this act] is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of [this act] is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.

(2) This chapter may not be construed to impose, by implication or otherwise, criminal liability on a landowner or the agent of a landowner for the taking of a publicly owned wild buffalo or bison that is suspected of carrying disease and that is present on the landowner's private property or otherwise threatening the landowner's livestock if:

(a) the landowner or agent notifies or makes a good faith effort to notify the department in order to allow as much time as practicable for the department to first take or remove the publicly owned wild buffalo or bison that is present on the landowner's property; and

(b) the landowner or agent is not in violation of subsection (3).

(3) A person may not intentionally provide supplemental feed to game animals in a manner that results in an artificial concentration of game animals that may potentially contribute to the transmission of disease. A person who violates this subsection is guilty of a misdemeanor and is subject to the penalty provided in 87-1-102(1)."

Section 2. Section 87-1-215, MCA, is amended to read:

"87-1-215. Wild buffalo as species in need of management — policy — department duties. (1) The legislature finds that the management through hunting of wild buffalo or bison is not appropriate but that significant potential exists for the spread of contegious disease to persons or livestock in Montana and damage to persons and property by wild buffalo or bison. Therefore, it is the purpose of this section to designate wild huffalo or bison, which have not been reduced to captivity, as a species in need of management and te set out specific departmental duties for management of the species.

(2) The department:

"**85-2-436. (Temporary) Water leasing study.** (1) The department of fish, wildlife, and parks and the department, in consultation with the ~~water policy~~

~~committee~~ *environmental quality council*, shall conduct and coordinate a study that, at a minimum:

(a) provides the following data for each designated stream reach and each pilot lease entered into under subsection (2):

(i) the length of the stream reach and how it is determined;

(ii) technical methods and data used to determine critical streamflow or volume needed to preserve fisheries;

(iii) legal standards and technical data used to determine and substantiate the amount of water available for instream flows through leasing of existing rights;

(iv) contractual parameters, conditions, and other steps taken to ensure that each lease in no way harms other appropriators, particularly if the stream is one that experiences natural dewatering; and

(v) methods and technical means used to monitor use of water under each lease;

(b) based on the data provided under subsection (1)(a), develops a complete model of a water lease and lease authorization that includes a step-by-step explanation of the process from initiation to completion.

(2) For purposes of undertaking the study described in subsection (1) and as authorized by law, the department of fish, wildlife, and parks and the department may engage in the activities described in this subsection. For purposes of this study, this section is the exclusive means by which the department of fish, wildlife, and parks may seek to change an appropriation right to an instream flow purpose.

(a) The department of fish, wildlife, and parks, with the consent of the commission, may lease existing rights for the purpose of maintaining or enhancing streamflows for the benefit of fisheries in stream reaches determined eligible by the board pursuant to 85-2-437.

(b) Upon receipt of a correct and complete application for a lease from the department of fish, wildlife, and parks, the department shall publish notice of the application as provided in 85-2-307. Parties who believe they may be adversely affected by the proposed lease may file an objection as provided in 85-2-308. A lease may not be approved until all objections are resolved. After resolving all objections filed under 85-2-308, the department shall authorize a lease of an existing right for the purpose of maintaining or enhancing streamflows for the benefit of fisheries if the applicant submits a correct and complete application and meets the requirements of 85-2-402.

(c) The application for a lease authorization must include specific information on the length and location of the stream reach in which the streamflow must be maintained or enhanced and must provide a detailed streamflow measuring plan that describes the points where and the manner in which the streamflow must be measured.

(d) The maximum quantity of water that may be leased is the amount historically diverted by the lessor. However, only the amount historically

consumed, or a smaller amount if specified by the department in the lease authorization, may be used to maintain or enhance streamflows below the lessor's point of diversion.

(e) The lease may not be issued for a term of more than 10 years, but it may be renewed once for up to 10 years, except that a lease of water made available from the development of a water conservation or sterage project is restricted to a term of not more than 20 years. Upon receiving notice of a lease renewal, the department shall notify otber appropriators potentially affected by the lease and shall allow 30 days for submission of new evidence of adverse effects to other water rights. A lease authorization is not required for a renewal unless an appropriator other tban an appropriator described in subsection (2)(i) submits evidence of adverse effects to the appropriator's rights that has not been considered previously. If new evidence is submitted, a lease authorization must be obtained according to the requirements of 85-2-402.

(f) During the term of the lease, the department may modify or revoke the lease authorization if an appropriator other than an appropriator described in subsection (2)(i) proves by a preponderance of evidence that the appropriator's water right is adversely affected.

(g) The priority of appropriation for a lease under this section is the same as the priority of appropriation of the right tbat is leased.

(h) Neither a change in appropriation right nor any other authorization is required for the reversion of the appropriation right to the lessor's previous use.

(i) A person issued a water use permit with a priority of appropriation after the date of filing of an application for a lease authorization under this section may not object to the exercise of the lease according to its terms or the reversion of the appropriation right to the lessor according to the lessor's previous use.

(j) The department of fish, wildlife, and parks shall pay all costs associated with installing devices or providing personnel to measure streamflows according to the measuring plan submitted under tbis section.

(3)(a) The department of fish, wildlife, and parks shall complete and submit te the board, commission, and ~~water policy committee~~ *environmental quality council* an annual study progress report by December 1 of each year. This report must include the applicable information listed in subsection (1) for each lease, a summary of stream reach designation activity under 85-2-437, and a summary of leasing activity on all designated streams. If the department of fish, wildlife, and parks has not leased additional water rights under this section by December 1 of any year, the department of fish, wildlife, and parks shall provide compelling justification for that fact in the study progress report.

(b) A final study report must be adopted by the board and commission and submitted to the ~~water policy committee~~ *environmental quality council*, which shall complete the final report by December 1, 1998.

(4) This section does not create the rigbt for a person to bring suit to compel the renewal of a lease that has expired. (Terminates June 30, 1999—sec. 4, Cb. 740, L. 1991.)"

(a) the financial resources of the child;

(b) the financial resources of the custodial parent;

(c) the standard of living the child would have enjoyed had the marriage not been dissolved;

(d) the physical and emotional condition of the child and the child's educational and medical needs;

(e) the financial resources and needs of the noncustodial parent;

(f) the age of the child;

(h) any custody arrangement that is ordered or decided upon; and

(i) the needs of any person, other than the child, whom either parent is legally obligated to support.

(3) (a) Whenever a court issues or modifies an order concerning child support, the court shall determine the child support obligation by applying the standards in this section and the uniform child support guidelines adopted by the department of ~~social and rehabilitation~~ *public health and human* services pursuant to 40-5-209. The guidelines must be used in all cases, including cases in which the order is entered upon the default of a party and those in which the parties have entered into an agreement regarding the support amount. A verified representation of the defaulting parent's income, based on the best information available, may be used when a parent fails te provide financial information for use in applying the guidelines. The amount determined under the guidelines is presumed te be an adequate and reasonable support award, unless the court finds by clear and convincing evidence that the application of the standards and guidelines is unjust to the child or to any of the parties or is inappropriate in that particular case.

(b) If the court finds that the guideline amount is unjust or inappropriate in a particular case, it shall state its reasons for finding that the application of the standards and guidelines is unjust to the child or a party or is inappropriate in that particular case. Similar reasons must also be stated in a case in which the parties have agreed to a support amount that varies from the guideline amount. Findings that rebut and vary the guideline amount must include a statement of the amount of support that would have ordinarily been ordered under the guidelines.

(c) If the court does not order a parent owing a duty of support to a child to pay any amount for the child's support, the court shall state its reasons for not ordering child support.

(4) Each district court judgment, decree, or order establishing a final child support obligation under this title and each modification of a final order for child support must include a provision addressing health insurance coverage in the following cases:

(a) If either party has available through an employer or other organization health insurance coverage for the child or children for which the premium is partially or entirely paid by the employer or organization, the judgment, decree, or order may contain a provision requiring that coverage for the child or children be continued or obtained.

(b) In the event that health insurance required in a child support judgment, decree, or order becomes unavailable to the party who is to provide it, through loss or change of employment or otherwise, that party must, in the absence of an agreement to the contrary, obtain comparable insurance or request that the court modify the requirement.

(c) All temporary child support orders must contain a provision requiring the party who has health insurance in effect for the child or children of the parties to continue the insurance coverage pending final disposition of the case.

(d) The parties may by written agreement provide for the health care coverage required by this section, subject to the approval of the court.

HeinOnline -- 1995 vol. III 2890 1995

(e) Unless otherwise provided in the decree, the health care coverage required by this section is in addition to and not in substitution, in whole or in part, for the child support obligation.

(5) (a) Unless the court makes a written exception under 40-5-315 or 40-5-411 and the exception is included in the support order, a support obligation established by judgment, decree, or order under this section, whether temporary or final, and each modification of an existing support obligation under 40-4-208 must be enforced by immediate or delinquency income withholding, or both, under Title 40, chapter 5, part 3 or 4. A support order that omits the written exceptions provided in 40-5-315 or 40-5-411 or that provides for a payment arrangement inconsistent with this section is nevertheless subject to withholding for the payment of support without need for an amendment to the support order or for any further action by the court.

(b) If an obligor is exempt from immediate income withholding, the district court judgment or order must include a warning statement that if the obligor is delinquent in the payment of support, the obligor's income may be subject to income withholding procedures under Title 40, chapter 5, part 3 or 4. Failure to include a warning statement in a judgment or order does not preclude the use of withholding procedures.

(c) ~~After October 1, 1993, if~~ *If* a support order subject to income withholding is expressed in terms of a monthly obligation, the order may be annualized and withheld on a weekly or biweekly basis, corresponding to the obligor's regular pay period.

(6) For the purposes of income withholding under subsection (5), every district court judgment, decree, or order that establishes or modifies a child support obligation must include a provision requiring the parent obligated to pay support to inform the court and, if the department of ~~social and rehabilitation~~ *public health and human* services is providing services under Title IV-D of the Social Security Act for the enforcement of the judgment, decree, or order, the department, of the following:

(a) the name and address of the parent's current employer;

(b) whether the parent has access to health insurance through an employer or other group; and

(c) if insurance coverage is available, the health insurance policy information.

(7) If the department of ~~social and rehabilitation~~ *public health and human* services is providing or later provides support enforcement services under Title IV-D of the Social Security Act, each district court order or modification of an order must contain a statement providing that the noncustodial parent, without further order of the court, is required to obtain and maintain health insurance coverage as provided in 40-5-208. Failure to include a warning statement in the judgment or order does not preclude the imposition of sanctions under 40-5-208.

(8) Each district court judgment, decree, or order establishing a final child support obligation under this part and each modification of a final order for child support must contain a statement that the order is subject to review and modification by the department of ~~social and rehabilitation~~ *public health and*

(B) the court for the benefit of the minor child;

(iii) any other person or agency designated as caretaker of the minor child by agreement of the legal custodian; or

(iv) any assignee or other person, organization, or agency authorized to receive or collect child support.

(b) A judgment, decree, or order that omits the provision required by subsection (9)(a) is subject to the requirements of subsection (9)(a) without need for an amendment to the judgment, decree, or order or for any further action by the court."

Section 119. Section 40-4-205, MCA, is amended to read:

"**40-4-205. Representation of child.** The court may appoint an attorney to represent the interests of a minor dependent child with respect to the child's support, custody, and visitation. The county attorney, a deputy county attorney, if any, or the department of ~~family~~ *public health and human* services or any of its staff may not be appointed for this purpose. The court shall enter an order for costs and fees in favor of the child's attorney. The order must be made against either or both parents, except that if the responsible party is indigent, the costs must be waived."

(iii) upon application by the department of ~~social and rehabilitation~~ *public health and human* services, whenever the department of ~~social and rehabilitation~~ *public health and human* services is providing services under Title IV-D of the federal Social Security Act. The support obligation must be modified, as appropriate, in accordance with the guidelines promulgated under 40-5-209. A modification under this subsection may not be made within 12 months after the establishment of the order or the most recent modification.

(3) The provisions as to property disposition may not be revoked or modified hy a court, except:

(a) upon written consent of the parties; or

(b) if the court finds the existence of conditions that justify the reopening of a judgment under the laws of this state.

(4) Unless otherwise agreed in writing or expressly provided in the decree, the ohligation to pay future maintenance is terminated upon the death of either party or the remarriage of the party receiving maintenance.

(5) Provisions for the support of a child are terminated by emancipation of the child or the child's graduation from high school if the child is enrolled in high school, whichever occurs later, but in no event later than the child's 19th birthday, unless the termination date is extended or knowingly waived hy written agreement or by an express provision of the decree. (4) Unless an exception under 40-5-411(4) is contained in a support order, withholding of income is required under this part without need for any amendment to the support order involved or any action by the court or entity that issued the support order even though the support order did not address withholding or the support order provided for other payment arrangements.

(5) Withholding, once commenced, applies to all current and subsequent payors of income to a person obligated to pay support until the withholding is terminated as provided by this part.

(ii) if the attempted marriage is invalid without a court order, the child is born within 300 days after the termination of cohabitation;

(c) after the child's birth, ~~he~~ *the presumed father* and the child's natural mother have married or attempted to marry each other by a marriage solemnized in apparent compliance with law, although the attempted marriage is or could be declared invalid, and:

(i) ~~he~~ *the presumed father* has acknowledged his paternity of the child in writing filed with the department of *public* health and ~~environmental sciences~~

human services or with tho district court for the county where ~~he~~ *the presumed father* resides; or

(ii) with ~~his~~ consent, ~~he~~ *the presumed father* is named as the child's father on the child's birth certificate; or

The husband's consent must be in writing and signed by ~~him~~ *the husband* and ~~his~~ *the* wife. The physician shall certify their signatures and the date of the insemination and file the husband's consent with the department of *public* health and ~~environmental sciences~~ *human services*, where it ~~shall~~ *must* be kept confidential and in a sealed file. However, the physician's failure to do so does not affect the father and child relationship. All papers and records pertaining to the insemination, whether part of the permanent record of a court or of a file held by the supervising physician or elsewhere, are subject to inspection only upon an order of the court for good cause shown.

(2) The donor of semen provided to a licensed physician for use in artificial insemination of a married woman other than the donor's wife is treated in law as if he *the donor* were not the natural father of a child ~~thereby~~ conceived *by artificial insemination*."

(3) Regardless of its terms, an agreement, other than an agreement approved by the court in accordance with 40-6-114(2), between an alleged or presumed father and the mother or child does not bar an action under this section.

(4) If an action under this section is brought before the birth of the child, all proceedings ~~shall~~ *must* be stayed until after the birth, except service of process and the taking of depositions to perpetuate testimony."

Section 146. Section 40-6-110, MCA, is amended to read:

"**40-6-110. Parties.** The child must be made a party to the action. A minor must be represented by the minor's general guardian or a guardian ad litem appointed by the court. The child's mother or father may not represent the child as guardian or otherwise. The court may not appoint the department of ~~family~~ *public health and human* services or any of its staff as guardian ad litem for the child. The natural mother, each ~~man~~ *person* presumed to be the father under 40-6-105, and each ~~man~~ *person* alleged to he the natural father must be made parties or, if not subject to the jurisdiction of the court, must be given notice of the action in a manner prescribed by the court and must be given an opportunity te be heard. The court may align the parties."

Section 147. Section 40-6-116, MCA, is amended to read:

"**40-6-116. Judgment or order.** (1) The judgment or order of the court determining the existence or nonexistence of the parent and child relationship is determinative for all purposes.

(2) If the judgment or order of the court is at variance with the child's birth certificate, the court shall order that a substitute birth certificato be issued under 40-6-123.

(3) (a) The judgment or order may contain any other provision directed against the appropriate party to the proceeding concerning the custody and guardianship of the child, visitation privileges with the child, the furnishing of hond or other security for the payment of the judgment, or any other matter in the best interest of the child.

(b) Except when the financial responsibility of a responsible parent is in the process of being determined pursuant to the administrative procedure provided in 40-5-225, the judgment or order must contain a provision concerning the duty of child support.

HeinOnline -- 1995 vol. III 2914 1995

(c) The judgment or order may direct the father to pay the reasonable expenses of the mother's pregnancy and confinement.

(4) (a) Support judgments or orders ordinarily must be for periodic payments, which may vary in amount.

(b) In the best interest of the child, a lump-sum payment or the purchase of an annuity may be ordered in lieu of periodic payments of support.

(c) The court may limit the father's liability for past support of the child to the proportion of the expenses already incurred that the court considers just.

(5) In determining the amount to be paid by a parent for support of the child and the period during which the duty of support is owed, a court enforcing the obligation of support shall consider all relevant facts, including:

(a) the needs of the child, including medical needs;

(b) the standard of living and circumstances of the parents;

(c) the relative financial means of the parents;

(d) the earning ability of the parents;

(e) the need and capacity of the child for education, including higher education;

(f) the age of the child;

(g) the financial resources and the earning ability of the child;

(h) the responsibility of the parents for the support of others;

(i) the value of services contributed by the custodial parent;

(j) the cost of day care for the child; and

(k) any custody arrangement that is ordered or decided upon.

(6) (a) Whenever a court issues or modifies an order concerning child support, the court shall determine the child support obligation by applying the standards in this section and the uniform child support guidelines adopted by the department of ~~social and rehabilitation~~ *public health and human* services pursuant to 40-5-209. The guidelines must be used in all cases, including cases in which the order is entered upon the default of a party and those in which the parties have entered into an agreement regarding the support amount. A verified representation of a defaulting parent's income, based on the best information available, may be used when a parent fails to provide financial information for use in applying the guidelines. The amount determined under the guidelines is presumed to be an adequate and reasonable support award, unless the court finds by clear and convincing evidence that the application of the standards and guidelines is unjust to the child or to any of the parties or is inappropriate in that particular case.

(b) If the court finds that the guideline amount is unjust or inappropriate in a particular case, it shall state its reasons for finding that the application of the standards and guidelines is unjust to the child or a party or is inappropriate

in that particular case. Similar reasons must also be stated in a case in which the parties have agreed to a support amount that varies from the guideline amount. Findings that rebut and vary the guideline amount must include a statement of the amount of support that would have ordinarily been ordered under the guidelines.

(c) If the court does not order a parent owing a duty of support to a child to pay any amount for the child's support, the court shall state its reasons for not ordering child support.

(7) The judgment or order concerning child support and each modification of a judgment or order for child support must include a provision addressing health insurance coverage in the following cases:

(a) If either party has available through an employer or other organization health insurance coverage for the child or children for which the premium is partially or entirely paid by the employer or organization, the judgment or order may contain a provision requiring that coverage for the child or children be continued or obtained.

(b) In the event that health insurance required in a child support judgment or order becomes unavailable to the party who is to provide it, through loss or change of employment or otherwise, that party shall, in the absence of an agreement to the contrary, obtain comparable insurance or request that the court modify the requirement.

(c) The parties may by written agreement provide for the health care coverage required by this section, subject to the approval of the court.

(d) Unless otherwise provided in the decree, the health care coverage required by this section is in addition to and not in substitution, in whole or in part, for the child support obligation.

(8) (a) Unless an exception is found under 40-5-315 or 40-5-411 and the exception is included in the support order, a support obligation established by judgment, decree, or order under this section, whether temporary or final, and each modification of an existing support obligation made under 40-6-118 must be enforced by immediate or delinquency income withholding, or both, under Title 40, chapter 5, part 3 or 4. A support order that omits the exception or that provides for a payment arrangement inconsistent with this section is nevertheless subject to withholding for the payment of support without need for an amendment to the support order or for any further action by the court.

(b) ~~After October 1, 1993, if~~ *If* a support order subject to income withholding is expressed in terms of a monthly obligation, the order may be annualized and withheld on a weekly or biweekly basis, corresponding to the obligor's regular pay period.

(9) For the purposes of income withholding as provided in subsection (8), whenever the district court establishes or modifies a child support obligation, the judgment, decree, or order must include a provision requiring the parent obligated to pay support to inform the court and, if the department of ~~social and rehabilitation~~ *public health and human* services is providing services under Title IV-D of the Social Security Act for the enforcement of the judgment, decree, or order, the department, of the following:

(a) the name and address of the parent's current employer;

(b) whether the parent has access to health insurance through an employer or other group; and

(c) if insurance coverage is available, the health insurance policy information.

(10) If the department of ~~social and rehabilitation~~ *public health and human* services is providing or later provides support enforcement services under Title IV-D of the Social Security Act, each district court order or modification of an order must contain a statement providing that the noncustodial parent, without further order of the court, is required to obtain and maintain health insurance coverage as provided in 40-5-208. Failure to include a warning statement in the judgment or order does not preclude the imposition of sanctions under 40-5-208.

(11) Each district court judgment, decree, or order establishing a final child support obligation under this part and each modification of a final order for child support must contain a statement that the order is subject to review and modification by the department of ~~social and rehabilitation~~ *public health and human* services upon the request of the department or a party under 40-5-271 through 40-5-273 when the department is providing services under Title IV-D of the Social Security Act for the enforcement of the order."

Section 148. Section 40-6-123, MCA, is amended te read:

"**40-6-123. Birth records.** (1) Upon order of a court of this state or upon request of a court of another state, the department of *public* health and ~~environmental sciences~~ *human services* shall prepare a substitute certificate of birth consistent with the findings of the court and shall substitute the new certificate for the original certificate of birth.

(2) The fact that the father and child relationship was declared after the child's birth ~~shall~~ *may* not be ascertainable from the new certificate but the actual place and date of birth ~~shall~~ *must* be shown.

(3) The evidence upon which the new certificate was made and the original birth certificate ~~shall~~ *must* be kept in a sealed and confidential file and ~~shall be~~ *is* subject to inspection only upon consent of the court and all interested persons or in exceptional cases only upon an order of the court for good cause shown."

Section 149. Section 40-6-126, MCA, is amended to read:

"**40-6-126. Notice of intent to claim paternity.** (1) Before the birth of a child born out of wedlock, a person claiming under oath to be the father of the child may file a verified notice of intent to claim paternity with the district court in any county of this stato. The form of the notice ~~shall~~ *must* be prescribed by the director of the department of *public* health and ~~environmental sciences~~ *human services* and supplied to the clerks of the district courts. The notice ~~shall~~ *must* include the claimant's address. On the next business day after receipt of the notice, the court shall transmit the notice to the records and statistics bureau of the department of *public* health and ~~environmental sciences~~ *human services*. If the mother's address is stated on the notice, the records and statistics bureau shall send a copy of the notice by first-class mail to the mother of the child at the stated address.

HeinOnline -- 1995 vol. III 2917 1995

(2) A person filing a notice of intent to claim paternity or acknowledging paternity in accordance with 40-6-105 ~~shall be~~ *is* presumed to be the father of the child for purposes of this part unless the mother denies that the claimant is the father. ~~Such~~ *The* notice is admissible in a paternity proceeding under 40-6-107 and creates a rebuttable presumption as to the paternity of that child for purposes of that section. ~~Such~~ *The* notice creates a rebuttable presumption as to patornity of the child for purposes of a dependency or neglect proceeding under Title 41, chapter 3.

(3) A person who makes a timely filing of notice of intent to claim paternity or who formally acknowledges paternity under 40-6-105 is entitled to notice of any hearing to determine the identity of the father of the child and any hearing to determine or terminate ~~his~~ paternal rights to the child."

Section 150. Section 40-6-128, MCA, is amended to read:

"**40-6-128. Proceeding to determine father's identity and terminate rights.** (1) If a child is born out of wedlock and the mother executes or proposes to execute a release terminating ~~her~~ rights to the child or if the child otherwise becomes the subject of an adoption proceeding, the agency or person to whom the child has been or is to be relinquished or the mother or person having custody of the child shall file a petition in the district court to terminate the parental rights of the father, unless the father's relationship to the child has been previously terminated or determined not to exist by the court. The court shall hold a hearing as soon as practical to determine the identity of the father and to determine or terminato the rights of the father as provided in this section and in 40-6-129 and 40-6-130. This section is not applicable if the father is a person whose consent to adoption is not required under 40-8-111.

(2) Proof of service of a notice of intent to release or the putative father's verified acknowledgment of notice of intent to release ~~shall~~ *must* be filed with the court, if ~~such~~ *the* notice was given to the putative father. The court shall request the records and statistics bureau of the department of *public* health and ~~environmental sciences~~ *human services* to send to the court a copy of any notice of intent to claim paternity of the particular child which the bureau has received.

(3) If the mother has failed to name a putative father or has failed to file a notice of intent to release, the court shall cause inquiry to he made of the mother in an effort to identify the natural father. The inquiry shall include the following:

(c) any other ~~male~~ *person* who was not served pursuant to 40-6-127(2) with a notice of intent to release and who the court, after inquiry of the mother or any other appropriate person, has reason to believe may be the father of the child.

(6) The notice of hearing ~~shall~~ *must* inform the putative father that his failure to appear at the hearing constitutes a denial of ~~his~~ *the putative father's* interest in custody of the child, which denial will result in the court's termination of ~~his~~ *the putative father's* rights to the child.

(7) Proof of service of the notice of hearing required by subsection (5) ~~shall~~ *must* be filed with the court. A verified acknowledgment of service by the party to be served is proof of personal service. Notice of hearing need not he required if the putative father is present at the hearing. (1) The issue of the defendant's fitness to proceed may be raised by the court, the defendant or the defendant's counsel, or by the prosecutor. When the issue is raised, it must be determined by the court. If neither the prosecutor nor counsel for the defendant contests the finding of the report filed under 46-14-206, the court may make the determination on the basis of the report. If the finding is contested, the court shall hold a hearing on the issue. If the report is received in evidence upon the hearing, the parties have the right to subpoena and cross-examine the psychiatrists or licensed clinical psychologists who joined in the report and to offer evidence upon the issue.

(2) If the court determines that the defendant lacks fitness to proceed, the proceeding against the defendant must be suspended, except as provided in

(4) The fact that the defendant is unfit to proceed does not preclude any legal objection to the prosecution that is susceptible to fair determination prior to trial and without the personal participation of tlie defendant.

(5) The expenses of sending the defendant to the custody of the director of the department of ~~corrections~~ *public health* and human services to be placed in an appropriate institution of the department of ~~corrections~~ *public health* and human services, of keeping the defendant there, and of bringing the defendant back are chargeable to the state and payable according to procedures established under 3-5-902(1)."

Section 205. Section 46-14-222, MCA, is amended to read:

"**46-14-222. Proceedings if fitness regained.** When the court, on its own motion or upon tho application of the director of the department of ~~corrections~~ *public health* and human services, tbe prosecution, or tbe defendant or the defendant's legal representative, determines, after a hearing if a hearing is requested, that the defendant has regained fitness to proceed, the proceeding must be resumed. If, however, the court is of the view that so much time has elapsed since the commitment of the defendant that it would be unjust to resume the criminal proceedings, the court may dismiss the charge and may order the defendant to be discharged or, subject to the law governing the civil commitment of persons suffering from serious mental illness, order the defendant committed to an appropriate institution of the department of ~~corrections~~ *public health* and human services."

Section 206. Section 46-14-301, MCA, is amended to read:

"**46-14-301. Commitment upon finding of not guilty by reason of lack of mental state — hearing to determine release or discharge.** (1) When a defendant is found not guilty for the reason that due to a mental disease or defect the defendant could not bave a particular state of mind that is an essential element of the offense charged, the court shall order a predisposition investigation in accordance with 46-18-112 and 46-18-113, which must include an investigation of the present mental condition of the defendant. If the trial was by jury, the court shall hold a hearing to determine the appropriate

HeinOnline -- 1995 vol. III 2969 1995

disposition of the defendant. If the trial was by the court, the court may hold a hearing to obtain any additional testimony it considers necessary to determine the appropriate disposition of the defendant. In either case, the testimony and evidence presented at the trial must be considered by the court in making its determination.

(2) The court shall evaluate the nature of the offense with which the defendant was charged. If the offense:

(a) involved a substantial risk of serious bodily injury or death, actual bodily injury, or substantial property damage, the court may find that the defendant suffers from a mental disease or defect that renders the defendant a danger to the defendant or others. If the court finds that the defendant presents a danger to the defendant or others, the defendant may be committed to the custody of the director of the department of ~~corrections~~ *public health* and human services to be placed in an appropriate mental health facility for custody, care, and treatment. The hearing must be conducted by the court that ordered the commitment unless that court transfers jurisdiction to the district court in the district in which the person has been placed. The court shall cause notice of the hearing to be served upon the person, the person's counsel, the prosecutor, and the court that originally ordered the commitment. The hearing is a civil proceeding, and the burden is upon the state to prove by clear and convincing evidence that the person may not be safely released because the person continues to suffer from a mental disease or defect that causes the person to present a substantial risk of:

(a) serious bodily injury or death to the person or others;

(b) an imminent threat of physical injury to the person or others; or

(c) substantial property damage.

(4) According to the determination of the court upon the hearing, the person must be discharged or released on conditions the court determines to be necessary or must be committed to the custody of the director of the department of ~~corrections~~ *public health* and human services to be placed in an appropriate mental health facility for custody, care, and treatment.

(5) A professional person shall review the status of the person each year. At the time of the annual review, the director of the department of ~~corrections~~ *public health* and human services or the person or the representative of the

(2) Either the director of the department of ~~corrections~~ *public health* and human services or the person may also make application to the court for discharge or release as part of the person's annual treatment review.

(3) The court shall then appoint at least one person who is either a qualified psychiatrist or licensed clinical psychologist to examine the person and to report as to the person's mental condition within 60 days or a longer period that the court determines to be necessary for the purpose. To facilitate the examinations and the proceedings on the examinations, the court may have the person confined in any mental health facility located near the place where the court sits that may be designated by the director of the department of ~~corrections~~ *public health* and human services as suitable for the temporary detention of persons suffering from mental disease or defect.

(4) The committed person or the person's attorney may secure a professional person of the committed person's choice to examine the committed person and to testify at the hearing. If the person wishing to secure the testimony of a professional person is unable to do so because of financial reasons, the court shall appoint an additional professional person to perform the examination. Whenever possible, the court shall allow the committed person or the person's attorney a reasonable choice of an available professional person qualified to perform the requested examination. The professional person must be compensated by the department of ~~corrections~~ *public health* and human services.

HeinOnline -- 1995 vol. III 2971 1995

(6) (a) If the court is not satisfied, it shall promptly order a hearing to determine whether the person may safely be discharged or released on the grounds that the person no longer suffers from a mental disease or defect that causes the person to present a substantial risk of:

(i) serious bodily injury or death to the person or others;

(ii) an imminent threat of physical injury to the person or others; or

(iii) substantial property damage.

(b) A hearing is considered a civil proceeding, and the burden is upon the state to prove by clear and convincing evidence that the person may not be safely discharged or released because the person continues to suffer from a mental disease or defect that causes the person to present a substantial risk of:

(i) serious bodily injury or death to the person or others;

(ii) an imminent threat of physical injury to the person or others; or

(iii) substantial property damage.

(c) According to the determination of the court upon the hearing, the committed person must then be discharged or released on conditions that the court determines to be necessary or must be recommitted to the custody of the director of the department of ~~corrections~~ *public health* and human services, subject to discharge or release only in accordance with the procedures provided in this section and 46-14-303."

Section 208. Section 46-14-303, MCA, is amended to read:

"46-14-303. Application for discharge or release by committed person. A committed person may make application for discharge or release to the district court by which the person was committed unless that court transfers jurisdiction to the court in the district in which the person has been placed, and the procedure to be followed upon the application is the same as that prescribed in 46-14-302 in the case of an application by the director of the department of ~~corrections~~ *public health* and human services. However, an application by a committed person need not be considered until the person has been confined for a period of not less than 6 months from the date of the order of commitment, and if the determination of the court is adverse to the application, the person may not be permitted to file a further application until 1 year has elapsed from the date of any preceding hearing on an application for the person's release or discharge."

Section 209. Section 46-14-304, MCA, is amended to read:

"46-14-304. Revocation of conditional release. (1) The court may order revocation of a person's conditional release if the court determines after hearing evidence that:

HeinOnline -- 1995 vol. III 2972 1995

suffer from a mental disease or defect that causes the person to present a substantial risk of:

(i) serious bodily injury or death to the person or others;

(ii) an imminent threat of physical injury to the person or others; or

(iii) substantial property damage.

(2) The court may retain jurisdiction to revoke a conditional release for no longer than 5 years.

(3) If the court finds that the conditional release should he revoked, the court shall immediately order the person to he recommitted to the custody of the director of the department of ~~corrections~~ *public health* and human services, subject to discharge or release only in accordance with the procedures provided in 46-14-302 and 46-14-303."

(2) If the court finds that the defendant at the time of the commission of the offense suffered from a mental disease or defect as described in 46-14-311, any mandatory minimum sentence prescribed by law for the offense need not apply and the court shall sentence the defendant to be committed to the custody of the director of the department of ~~corrections~~ *public health* and human services to he placed in an appropriate institution for custody, care, and treatment for a definite period of time not to exceed the maximum term of imprisonment that could be imposed under suhsection (1). The authority of the court with regard to sentencing is the same as authorized in Title 46, chapter 18, if the treatment of the individual and the protection of the public are provided for.

(2) The correctional policy of the state of Montana is to protect society by preventing crime through punishment and rehabilitation of the convicted. The legislature finds that an individual is responsible for and must be held accountable for the individual's actions. Corrections laws and programs must be implemented to impress upon each individual the responsibility for obeying the law. To achieve this end, it is the policy of the state to assure that prosecution of criminal offenses occurs whenever probable cause exists and that punishment of the convicted is certain, timely, and consistent. Furthermore, it is the stato's policy that persons convicted of a crime be dealt with in accordance with their individual characteristics, circumstances, needs, and potentialities.

(3) (a) Sentences imposed upon those convicted of crime must be based primarily on the following:

(i) the crime committed;

(ii) the prospects of rehabilitation of the offender;

(iii) the circumstances under which the crime was committed;

(iv) the criminal histery of the offender; and

(v) consideration of alternatives to imprisonment of the offender in the state prison or the women's correctional ~~center~~ *system*.

(b) Dangerous offenders who habitually violate the law and victimize the public must be removed from society and correctively treated in custody for long terms, as needed. Other offenders must be dealt with by probation, suspended sentence, community corrections, community service, or fine whenever ~~such~~ *the* disposition appears practicable and not detrimental to the needs of public safety and the welfare of the individual. Whenever possible, sentences for offenders must include restitution te the victim, payment of costs as provided in 46-18-232, and payment of costs of court-appointed counsel as provided in 46-8-113.

(4) It is also the policy of the state that altornatives to imprisonment, such as community corrections, should be used whenever appropriate for nonviolent felony offenders in order to provide them opportunities to gain work experience, to learn life skills, to obtain education and training, or to participate in other activities that will reduce recidivism and enable offenders to become productive members of society."

HeinOnline -- 1995 vol. III 2974 1995

(2) Unless the court makes a finding that a report is unnecessary, a defendant convicted of any offense not enumerated in subsection (1) that may result in incarceration for 1 year or more may not be sentenced before a written presentence investigation report by a probation officer is presented to and considered by the district court. The district court may, in its discretion, order a presentence investigation for a defendant convicted of a misdemeanor."

(2) For the capitol restoration project, the department of administration is authorized to expend private donations, up to $5,385,640, for historic restoration projects and any Montana power company funding for approved energy retrofitting projects. If additional federal special revenue from CTEP funds becomes available, the department of administration is authorized to use those funds for capitol restoration projects. If CTEP funds are used for infrastructure projects, a matching amount of bonding authority in House Bill No. 15 may be used for historic restoration projects in order to reduce the spending authority for private donations. If any federal or bonded funding authorized for the restoration of the capitol building infrastructure is not needed because of a reduction in costs of the approved project, funding may be used for historic restoration projects.

(3) The funding provided to the projects in this section and identified by an asterisk (*) represents lodging facilities use tax that is allocated to the department of fish, wildlife, and parks and that is statutorily appropriated under 15-65-121 for maintenance of facilities in state parks. It is not intended for the project to be reduced by this amount.

(4) It is the intent of the long-range planning subcommittee that the $625,000 appropriated for the Spring Meadow wildlife rehabilitation and education center project be used to transfer the animal shelter from its existing location to the Spring Meadow complex upon an agreement between the department of fish, wildlife, and parks and the donor group for the transfer of the Spring Meadow property and for the planning of additional phases of the project. It is not the intent of the subcommittee to encumber any future legislature with regard to additional phases of the project. The project approved in [this act] is to be a stand-alone project.

Section 3. Land acquisition appropriation. The following money is appropriated to the department of fish, wildlife, and parks in the indicated amounts for purposes of land acquisition, land leasing, easement purchase, or development agreement:

Agency/Project	LRBP	Other Funding Sources

Section 5. Dams. (1) The following money is appropriated to the department of fish, wildlife, and parks in the indicated amounts for the following dams:

Agency/Project	LRBP	Other Funding Sources
South Sandstone Dam Repair	$264,000	State Special Revenue
Ringy Dingy Dam Repair	50,000	State Special Revenue
Bearpaw Dam Upgrade	210,000	State Special Revenue

(2) In accordance with 85-1-101, the department of natural resources and conservation shall coordinate and manage the projects.

(3) Funds appropriated for the South Sandstone dam are contingent upon the department of fish, wildlife, and parks disposing of its ownership and liability responsibility of the property on which the South Sandstone dam is located. The transfer of ownership should include continued public recreational access. The department is authorized to make the repairs or may pass the funds through to the new owner to reimburse project expenses. If funds remain after completion of the project, the department is authorized to establish an operations and maintenance account for the project.

Section 6. Capital improvements. (1) The following money is appropriated to the department of transportation in the indicated amounts for the purpose of making capital improvements to statewide facilities:

Tongue River Dam Rehabilitation	$3,500,000	State Special Revenue
	31,865,000	Federal Special Revenue
Petrolia Dam Rehabilitation	1,076,000	State Special Revenue

(4) For the appropriation for the Petrolia dam rehabilitation, the legislature finds that the project is in need of costly repairs if operation of the project is to continue and that it is financially unsound for the state to continue to own the project. Any benefits to the public accruing from continued state ownership are outweighed by the cost of repairs and continued maintenance. The legislature finds that the useful life of the project as a state-owned water project is at an end. The department of natural resources and conservation is directed to enter into an agreement for the project's disposition to the Petrolia water users' association. The money appropriated in this section is contingent upon the Petrolia water users' association execution of a valid agreement to accept ownership of all property rights and liabilities associated with the project.

(5) The following money is appropriated to Montana state university in the indicated amount for the purpose of making capital improvements to campus facilities:

Agency/Project	LRBP	Other Funding Sources

(3) This section does not preclude additional funds, including separate appropriations, donations, grants, or other available funds, from being used for tbe construction or maintenance of state buildings.

Section 13. Percent-for-art. The architecture and engineering division of tbe department of administration is directed to minimize the allocation of funds for the acquisition of works of art, as provided in Title 22, chapter 2, part 4, for capital projects approved by the 1995 legislature.

For the proceeds of the bonds and notes authorized and appropriated by [sections 2 and 3] for the expansion and renovation of the job service office, Havre, the board of examiners and the department of labor and industry may enter into an agreement under which the department shall pay the state treasurer, for deposit in accordance with 17-2-101 through 17-2-107, an amount, as determined by the stato treasurer, that is sufficient to pay the principal and interest due on the bonds and notes from which the appropriation was made and that is sufficient to accommodate and maintain reserves required under the bonds and notes. The agreement must further provide that income from the investment of bond proceeds, unused principal, and the reserves not required for construction and renovation costs may be credited against the department's payment obligation.

HeinOnline -- 1995 vol. III 3201 1995

The agreement must also allow for the accumulation of reserves during the first year that the bonds are outstanding. Payment by the department must be made from funds available therefor.

Section 5. Planning and design. The department of administration may proceed with the planning and design of capital projects prior to the receipt of other funding sources. The department may use interaccount loans in accordance with 17-2-107 to pay planning and design costs incurred prior to the receipt of other funding sources.

Section 6. Capital projects — contingent funds. If a capital project is financed in whole or in part with appropriations contingent upon the receipt of other funding sources, the department of administration may not let the projects for bid until the agency has submitted a financial plan for approval by the director of the department of administration. A financial plan may not he approved by the director if:

(1) the level of funding provided under the financial plan deviates substantially from the funding level provided in [section 2] for that project; or

(2) the scope of the project is substantially altered or revised from the preliminary plans presented for that project in the 1996-97 long-range building program presented to the 54th legislature.

Section 7. Legislative consent. The appropriations authorized in [section 2] constitute legislative consent for the capital projects contained in [section 2] within the meaning of 18-2-102.

Section 8. Coordination instruction. If [this act] and House Bill No. 5 are both passed and approved and if both contain authorization for the pharmacy/psychology building addition project at the university of Montana-Missoula, then the amount of authorization for federal and private funding for that project in House Bill No. 5 is reduced by $2 million.

Section 9. Requirements for approval of state debt. Because [section 3] authorizes the creation of a stato debt, a vote of two-thirds of the members of each house is required for enactment of [section 3]. If [section 3] is not approved by the required voto, [this act] is void.

Section 10. Severability. If a part of [this act] is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of [this act] is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.

CHAPTER NO. 553

[HB 493]

AN ACT CREATING THE SAFE DRINKING WATER TREATMENT REVOLVING FUND ACT; AUTHORIZING THE ISSUANCE OF $10 MILLION IN GENERAL OBLIGATION BONDS TO PROVIDE THE STATE MATCHING FUNDS FOR THE SAFE DRINKING WATER TREATMENT REVOLVING FUND; AUTHORIZING THE ISSUANCE OF $5 MILLION IN GENERAL OBLIGATION BONDS TO PROVIDE THE STATE MATCHING FUNDS FOR THE STATE WASTE WATER TREATMENT REVOLVING FUND; PROVIDING A STATUTORY APPROPRIATION; AMENDING SECTIONS 17-7-502, 75-5-1112, 75-5-1113, AND 75-5-1121, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

STATEMENT OF INTENT

A statement of intent is required for this bill because rulemaking authority is granted to the board of health and environmental sciences and the board of natural resources and conservation to implement a new state financial assistance program for communities that need to improve their public water systems. The legislature understands and anticipates that the program will provide low interest loans and grants te Montana entities to construct needed improvements for water supply and treatment systems and that the program will be supported through federal grant funds and state matching funds raised through the issuance of general obligation bonds and repaid by interest charges of the loan. The bill requires rulemaking by both boards to establish procedures and criteria by which these loans and grants are awarded. In developing these rules, the legislature desires that the application review process should be straightforward and efficient for both the agencies and the applicant. Also, the criteria for awarding grants and loans should be clear and maximize the potential for state grants and loans to communities that need the funding.

Fundamentally, the legislature views this bill as providing a funding source for Montana entities required to meet drinking water standards or faced with upgrading or expanding their systems. Therefore, the rules should facilitate availability of this funding to the widest number of eligible entities at the lowest possible costs, taking into consideration the state's interest in protecting the viability of the program.

Be it enacted by the Legislature of the State of Montana:

CHAPTER NO. 559

[SB 38]

AN ACT ESTABLISHING THE JOB INVESTMENT ACT; AUTHORIZING THE DEPARTMENT OF COMMERCE TO ADMINISTER A PORTION OF THE PERMANENT COAL TAX TRUST FUND FOR LOANS TO BUSINESSES TO CREATE AND RETAIN JOBS; REVISING THE ADMINISTRATION OF PERMANENT COAL TAX TRUST FUNDS FOR SEED CAPITAL AND RESEARCH AND DEVELOPMENT PROJECTS; AMENDING SECTION 17-6-308, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

HeinOnline -- 1995 vol. III 3241 1995

STATEMENT OF INTENT

A statement of intent is required for this bill because [section 5] gives the department of commerce authority to adopt administrative rules for the administration of the Job Investment Act. The act is intended te provide funding for loans to Montana businesses as part of a financing package to permit business expansion, job creation, and job retention. The act is intended to expand the current capabilities of the economic development portion of the federal community development block grant program, which is highly effective but satisfies only a small portion of the existing need.

The job investment loans are intended to provide a portion of the financing necessary to permit business expansion, job creation, and job retention and may be used only in conjunction with equity and other debt financing in cases in which other funding would not satisfy the total need and would not be available without additional financing under the Job Investment Act.

The community development block grant program has also been used to leverage other forms of public and private financing to support job expansion and retention. The approximately $2.6 million of community development block grant program economic development funding for the current fiscal year amounts to funding for less than one-half of the funding requests received during the first 4 months of the current fiscal year. If annualized, this year's funding experience would result in requests in excess of $10 million. There is opportunity for significant economic impact from an expansion of the stato's investment in projects that create and retain jobs which would not be fully funded from existing sources.

Be it enacted by the Legislature of the State of Montana:

Section 1. Short title. [Sections 1 through 9] may be cited as the "Job Investment Act".

Section 2. Legislative findings — purpose. (1) The legislature finds and declares that:

(a) it is the policy of the state to foster and encourage economic development within the state in order to promote the general welfare of the people; and

(b) access to capital for the creation, expansion, and retention of qualified businesses, particularly for working capital, is a serious problem that inhibits tbe growth of businesses, jobs, and tax revenue.

(2) The purpose of [sections 1 through 9] is to create a job investment program that encourages and assists in the creation, development, and financing of businesses whose primary obstacle to expansion or retention of employment is access to the appropriate type and amount of financing. This financial need is particularly acuto in areas of the stato that are economically depressed, and emphasis should be given to projects that will be located in these areas if the projects meet the requirements of [sections 1 through 9] and rules adopted pursuant to [section 5] and meet acceptable levels of financial risk as determined by the loan review committee.

Section 3. Definitions. As used in [sections 1 through 9], unless the context requires otherwise, the following definitions apply:

HeinOnline -- 1995 vol. III 3242 1995

(1) "Board" means the Montana board of science and technology development provided for in 2-15-1818.

(2) "Department" means the department of commerce provided for in 2-15-1801.

(4) "Qualified business" means a business entorprise that either is or will he located in the state and that produces goods or provides services that will, as a result of receiving a job investment loan, create jobs for Montana workers.

Section 4. Loan applicant endorsement. Applicants for job investment loans must be endorsed by local government entities or local economic development corporations.

Section 5. Rulemaking authority. The department shall adopt rules to implement the provisions of [sections 1 through 9], including rules:

(1) determining the amount of interest and the method of computation and payment of interest charged to recipienta of job investment loans and specifying amortization schedules and other terms and conditions for job investment loans as necessary. The rate of interest charged on a loan may not bo less than the prevailing market rate.

(2) establishing criteria for determining nonperformance and declaring default for a job investment loan;

(3) specifying security and collateral requirements that must he met as a condition of receiving a job investment loan;

(4) encouraging financial institutions to participato to the greatest extent possible in the financing of joh investment projects;

(5) requiring that the joh investment loan may not exceed the funding provided by private lenders and that at least one private lender must be a financial institution. The board shall secure the most favorable collateral position possible on any job investment loan.

(6) establishing appropriate loan loss reserves; and

(7) providing for an application process and a loan review process that:

(a) incorporate the funding criteria adopted by the department to implement the federal community development block grant program pursuant to 90-1-103(5);

(h) minimize the amount of Job Investment Act funds required; and

(c) require financial institution review and contingent approval of the project before Job Investment Act funds are committed.

HeinOnline -- 1995 vol. III 3243 1995

Section 6. Job investment administrative account. There is a job investment administrative account in the state special revenue fund. The department shall deposit up to 20% of interest payments on job investment loans into the account. (4) a summary of funds leveraged with job investment loans; and

(5) an analysis of the job investment portfolio performance including calculations for returns on investments.

Section 9. Grants, gifts, and donations. The department may accept grants, gifts, and donations for purposes of [sections 1 through 9]. The department may expend the funds pursuant to laws and conditions governing the funds.

Section 10. Section 17-6-308, MCA, is amended to read:

"**17-6-308. Authorized investments.** (1) Except as provided in subsections (2) and (3) and subject to the provisions of 17-6-201, the Montana permanent coal tax trust fund must be invested as authorized by rules adopted by the board.

(2) The board may make loans from the permanent coal tax trust fund to the capital reserve account created pursuant to 17-5-1515 to establish balances or restore deficiencies in the account. The board may agree in connection with the issuance of bonds or notes secured by the account or fund to make the loans. Loans must be on terms and conditions ~~as~~ *determined by* the board ~~determines~~ and must be repaid from ~~revenues of the board~~ *revenue* realized from the exercise of ~~its~~ *the board's* powers under 17-5-1501 through 17-5-1518 and 17-5-1521 through 17-5-1529, subject to the prior pledge of the ~~revenues~~ *revenue* to the bonds and notes.

(a) Seller agent disclosure to the seller: "(Name of seller agent) will be representing you as your agent or subagent in the sale of your property located at (address of property). Your seller agent is obligated to you as enumerated below. If your seller agent is also representing a buyer who becomes interested in your property, a dual agency may be created. In a dual agency relationship, the seller agent is obligated to the buyer in the same way as to you. This conflict will prohibit the seller agent from advocating exclusively on your behalf or the buyer's behalf and may limit the level of representation you receive. If the potential for a dual agency arises, the seller agent shall provide you with a dual agent disclosure. A seller agent cannot act as a dual agent without your consent and that of the buyer. This consent is given by you and the buyer signing the dual agent disclosure. If you or the buyer declines to give this consent, your opportunity to sell your property to that buyer may be lost.

Your seller agent is obligated to you as follows:

HeinOnline -- 1995 vol. IV 3285 1995

(1) to act solely in the best interests of the seller to the exclusion of all other interests, including those of the seller agent;

(6) to fully account to the seller for all funds or property of the seller coming into the seller agent's possession;

(7) to comply with all applicable federal and state laws, rules, and regulations; and

(8) to carry out the terms of the listing agreement."

(b) Seller agent disclosure to the buyer: "(Name of seller agent) is the agent of the seller with respect to the seller's property located at (address of property). Although the seller agent is primarily obligated to the seller, the seller agent is obligated to you as specified below.

A seller agent is obligated to a buyer as follows:

(1) to disclose to a buyer any adverse material facts that concern the property and that are known to the seller agent;

(2) to deal in good faith with the buyer; and

(3) to comply with all applicable federal and state laws, rules, and regulations.

"Adverse material fact" means a fact that should be recognized by a broker as being of enough significance as to affect a person's decision to enter into a contract to buy or sell real property and may be a fact that materially affects the value or structural integrity or presents a documented health risk to occupants of the property. The term may not include the fact that an occupant of the property has or has had a communicable disease or that the property was the site of a suicide or felony."

(c) Buyer agent disclosure to the buyer: "(Name of buyer agent) will be representing you as your agent or subagent in the purchase of real property of the nature described in the buyer broker agreement. Your buyer agent is obligated to you as enumerated below. If your buyer agent is also representing a seller of property that you become interested in, a dual agency may be created. In a dual agency relationship, the buyer agent is obligated to the seller in the same way as to you. This conflict will prohibit the buyer agent from advocating exclusively on your behalf or on the seller's behalf and may limit the level of representation you receive. If the potential for a dual agency arises, the buyer agent shall provide you with a dual agent disclosure. A buyer agent cannot act

HeinOnline -- 1995 vol. IV 3286 1995

as a dual agent without your consent and that of the seller. This consent is given by you and the seller signing the dual agent disclosure. If you or the seller declines to give this consent, your opportunity to acquire the seller's property may be lost.

Your buyer agent is obligated to you as follows:

(1) to act solely in the best interests of the buyer to the exclusion of all other interests, including those of the buyer agent;

(2) to obey promptly and efficiently all lawful instructions of the buyer;

(3) to disclose to the buyer all relevant and material information that concerns the real estate transaction and that is known by the buyer agent and not known by the buyer, unless the information is subject to confidentiality arising from a prior or existing agency relationship;

(4) to safeguard the buyer's confidences;

(5) to exercise reasonable skill, care, and diligence in pursuing the buyer's objectives as established in the buyer broker agreement;

(6) to fully account to the buyer for all funds or property of the buyer coming into the buyer agent's possession;

(7) to comply with all applicable federal and state laws, rules, and regulations; and

(8) to carry out the terms of the buyer broker agreement."

(d) Buyer agent disclosure to the seller: "(Name of buyer agent) is representing the buyer with respect to the seller's property located at (address of property). Although the buyer agent is primarily obligated to the buyer, the buyer agent is obligated to you as specified below.

property. A statutory broker is obligated to the buyer and seller as specified below.

A statutory broker is obligated to the parties as follows:

(1) to disclose to a buyer any adverse material fact that concerns the property and that is known to the statutory broker and not known to the buyer. However, the statutory broker is not required to conduct an independent inspection of the property or to verify any representation made by the seller.

(2) to disclose to the seller any adverse material fact that concerns the buyer's intent or ability to perform on the purchase offer and that is known to the statutory broker and not known to the seller;

(3) to exercise reasonable skill, care, and diligence in facilitating the purchase and sale of the property; and

(4) to comply with all applicable federal and state laws, rules, and regulations.

"Adverse material fact" means a fact that should be recognized by a broker as being of enough significance as to affect a person's decision to enter into a contract to buy or sell real property. It may be a fact that materially affects the value or structural integrity or presents a documented health risk to occupants of the property, but may not include the fact that an occupant of the property has or has had a communicable disease or that the property was the site of a suicide or felony, or it may be a fact that materially affects the buyer's ability or intent to perform the buyer's obligations under a proposed or existing contract."

(f) Dual agent disclosure to the buyer and seller: "(Name of dual agent) is the agent of the buyer interested in purchasing the property and of the seller of the property located at (address of property). A dual agent is obligated to the buyer and seller as follows:

(1) to act solely in the best interests of the buyer and seller to the exclusion of all other interests including the dual agent's;

(2) to obey promptly and efficiently all lawful instructions of the buyer and seller;

(3) to disclose to the buyer and seller all relevant and material information that concerns the real estate transaction and that is known by the dual agent and not known by the buyer or seller, unless the information is subject to confidentiality arising from a prior or existing agency relationship;

(4) to exercise reasonable skill, care, and diligence in pursuing the buyer's and seller's objectives as established in the listing agreement and buyer broker agreement;

(5) to fully account to the buyer and seller for all funds or property of the buyer and seller coming into the dual agent's possession;

(6) to comply with all applicable federal and state laws, rules, and regulations;

HeinOnline -- 1995 vol. IV 3288 1995

(7) to carry out the terms of the buyer broker agreement; and

(8) to safeguard the buyer's and seller's confidences, subject to the obligation to disclose to a buyer or a seller any adverse material facts that are known to the dual agent, regardless of any confidentiality considerations. The following may not be disclosed without the written consent of the party to whom the information is confidential:

(a) that the buyer is willing to pay more than the buyer has offered for the property;

(b) that the seller is willing to accept less than the asking price for the property;

(c) factors motivating the buyer to buy or the seller to sell; and

(d) any other information that a party specifically indicates in writing to the dual agent is to be kept confidential and that is not an adverse material fact.

"Adverse material fact" means a fact that should be recognized by a broker as being of enough significance as to affect a person's decision to enter into a contract to buy or sell real property. It may be a fact that materially affects the value or structural integrity or presents a documented bealth risk to occupants of the property, but may not include the fact that an occupant of tbe property has or has had a communicable disease or tbat the property was tbe site of a suicide or felony, or it may be a fact that materially affects the buyer's ability or intent to perform the buyer's obligations under a proposed or existing contract.

Upon signing this disclosure form, the buyer and seller acknowledge that they understand the obligations owed by a dual agent to them and consent to the dual agent representing them as a dual agent."

(7) A written disclosure that complies with the provisions of this section must be construed as a sufficient disclosure of the relationship between a broker or salesperson and a buyer or seller and must be construed as conclusively establishing the obligations owed by a broker or salesperson to a buyer or seller in a real estate transaction.

(2) A broker is not liable for a misrepresentation made by the broker's broker associate or subagent unless:

CHAPTER NO. 566

[SB 292]

AN ACT CREATING THE "WOMAN'S RIGHT-TO-KNOW ACT"; PROVIDING FOR THE PUBLICATION AND DISSEMINATION OF INFORMATION CONCERNING ABORTION; CLARIFYING INFORMED CONSENT; PROVIDING CIVIL REMEDIES FOR FAILURE TO OBTAIN INFORMED CONSENT; AMENDING SECTIONS 50-20-104, 50-20-106, AND 50-20-112, MCA; AND PROVIDING AN EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Short title. [Sections 1 through 8] may be cited as the "Woman's Right-to-Know Act".

Section 2. Legislative purpose and findings. (1) The legislature finds that:

(a) it is essential to the psychological and physical well-being of a woman who is considering an abortion that the woman receive complete and accurate information on alternatives;

(b) the knowledgeable exercise of a woman's decision to have an abortion depends on the extent to which the woman receives sufficient information to make an informed choice between the alternatives of giving birth and having an abortion;

(c) in most instances, the only contact with a physician that a woman who has an abortion has occurs simultaneously with the abortion procedure, with little opportunity to receive counseling concerning the decision;

(d) the decision to abort is an important and often stressful one, and it is desirable and imperative that it be made with full knowledge of its nature and consequences;

(e) the medical, emotional, and psychological consequences of an abortion are serious and can be lasting;

HeinOnline -- 1995 vol. IV 3290 1995

(f) some abortion facilities or providers offer only limited or impersonal counseling opportunities; and

(g) some abortion facilities or providers hire untrained and unprofessional counselors whose primary goal is to sell abortion services.

(2) Based on the findings in subsection (1), it is the purpose of [sections 1 through 8] to:

(a) ensure that every woman who is considering an abortion receive complete information on alternatives and that every woman submitting to an abortion do so only after giving informed consent to the abortion procedure;

(b) protect unborn children from a woman's uninformed decision to have an abortion; and

(c) reduce the risk that a woman may elect an abortion, only to discover later, with devastating psychological consequences, that the decision was not fully informed.

Section 3. Definitions. As used in [sections 1 through 8], unless the context requires otherwise, the following definitions apply:

(1) "Medical emergency" means a condition that, on the basis of the physician's good faith clinical judgment, so complicates the medical condition of a pregnant woman as to necessitate the immediate abortion of the woman's pregnancy to avert the woman's death or for which a delay will create serious risk of substantial and irreversible impairment of a major bodily function.

(2) "Physician" means a person licensed to practice medicine under Title 37, chapter 3.

(3) "Pregnant" or "pregnancy" means that female reproductive condition of having an unborn child in the woman's body.

(4) "Unborn child" means the offspring of human beings from conception until birth.

Section 4. Publication of materials. (1) The department shall publish and annually update easily comprehensible printed, unbiased materials that are geographically indexed and designed to inform women of public and private agencies and services available to assist a woman through pregnancy, during childbirth, and while a woman's child is dependent. The materials must:

(a) include adoption agencies;

(b) include a comprehensive list of the agencies, a description of the services offered, and the telephone numbers and addresses of the agencies;

(c) inform a woman about medical assistance benefits for prenatal care, childbirth, neonatal care, and child support obligations of a father of a child.

(2) The department shall ensure that the materials described in this section are comprehensive and do not directly or indirectly promote, exclude, or discourage the use of any agency or service. The materials must include a toll-free, 24-hour telephone number that may be called to orally obtain a list and

HeinOnline -- 1995 vol. IV 3291 1995

description of agencies in the locality of the caller and of the services offered by the agencies.

(3) The materials must state that:

(a) it is unlawful for any individual to coerce a woman to undergo or not to undergo an abortion;

(b) a physician who performs an abortion on a woman without the woman's informed consent may be liable to the woman for damages in a civil action; and

(c) the law allows adoptive parents to pay the costs of prenatal care, childbirth, and neonatal care.

(4) The materials must inform the pregnant woman of the probable anatomical and physiological characteristics of the unborn child at 2-week gestational increments from fertilization to full term, including pictures or drawings representing the development of unborn children at 2-week gestational increments. The pictures or drawings must contain the dimensions of the unborn child and must be realistic. The materials must include any relevant information on the possibility of the unborn child's survival at each stage depicted. The materials must be objective, nonjudgmental, and designed to convey only accurate scientific information about the unborn child at the various gestational ages. The materials must contain objective information describing the methods of abortion procedures commonly employed, the medical risks commonly associated with each procedure, the possible detrimental psychological effects of abortion, the possible detrimental psychological effects of adoption, and the medical risks associated with carrying a child to term.

(5) The materials must be printed in a clearly legible typeface.

(6) The materials required to be produced under this section must be provided at no cost upon request and must be provided in appropriate quantities to any person, facility, or hospital.

(2) The department shall ensure that copies of the reporting forms described in subsection (1) are provided:

(a) by [120 days after the effective date of this section] to all physicians licensed in this state;

Each report must provide the statistics for all previous calendar years, adjusted to reflect information from late or corrected reports. The department shall ensure that none of the information included in the public reports could reasonably lead to the identification of an individual who was provided information in accordance with 50-20-106. The department shall design the reporting process to ensure that confidentiality regarding the physician or the physician's agent is maintained in the department records.

(6) The department may, by rule, alter the dates established by subsection (2)(c), (3), or (5) or consolidate the forms or reports described in this section with other forms or reports to achieve administrative convenience, achieve fiscal savings, or reduce the burden of reporting requirements. However, reporting forms must be sent to all licensed physicians at least once a year, and the report described in subsection (5) must be issued at least once a year.

anonymity should be preserved, shall issue orders to the parties, witnesses, and counsel and shall direct the sealing of the record and the exclusion of individuals from the proceedings to the extent necessary to safeguard the woman's identity from public disclosure. Each order must be accompanied by specific written findings explaining why the anonymity of the woman should be preserved, why the order is necessary, how the order is tailored to protect the woman's privacy, and why no less restrictive alternative exists. the owner or other person in charge of the vehicle consented to or was privy to the violation. A vehicle may not be forfeited under this section for any act or omission established by the owner to have been committed or omitted by a person other than the owner while the vehicle was unlawfully in the possession of a person other than the owner in violation of the criminal laws of this state or the United States.

(iii) Forfeiture of a vehicle encumbered by a security interest is subject to the secured person's interest if the person did not know and could not have reasonably known of the unlawful possession, use, or other act on which the forfeiture is sought.

(4) In addition to the punishment provided in this section, regardless of disposition, the defendant shall complete an alcohol information course at an alcohol treatment program approved by the department of corrections and human services, which may~~, in the sentencing court's discretion and upon recommendation of a certified chemical dependency counselor,~~ include alcohol or drug treatment, or both. *Alcohol or drug treatment, or both, must be ordered for a first-time offender upon a finding of chemical dependency made by a certified chemical dependency counselor pursuant to diagnosis and patient placement rules adopted by the department of corrections and human services.* On conviction of a second or subsequent offense under this section, in addition to the punishment provided in this section, regardless of disposition, the defendant shall complete an alcohol information course at an alcohol treatment program approved by the department of corrections and human services, which must include alcohol or drug treatment, or both. ~~Each counselor providing education or treatment shall, at the commencement of the education or treatment, notify the court that the defendant has been enrolled in a course or treatment program. If the defendant fails to attend the course or the treatment program, the counselor shall notify the court of the failure.~~ As long as the alcohol information course is approved as provided in this subsection and the treatment is provided by a certified chemical dependency counselor, the defendant may attend the information course and treatment program of the defendant's choice. The treatment provided to the defendant at a treatment program must be at a level appropriate to the defendant's alcohol *or drug* problem, *or both,* as determined by ~~the judge based upon the recommendation from the~~ *a* certified chemical dependency counselor *pursuant to diagnosis and patient placement rules adopted by the department of corrections and human services. On a second or subsequent conviction, the treatment program must be followed by monthly monitoring for a period of at least 1 year from the date of admission to the program. A court or counselor may not require attendance at a self-help program other than at an "open meeting" as that term is defined by the self-help program. A defendant may voluntarily participate in self-help programs. Each counselor providing education or treatment shall, at the commencement of the education or treatment, notify the court that the defendant has been enrolled in an alcohol information course or treatment program. If the defendant fails to attend the information course or treatment program, the counselor shall notify the court of the failure.*

An offender is considered to have been previously convicted for the purposes of sentencing if less than 5 years have elapsed between the commission of the present offense and a previous conviction. If there has been no additional conviction for an offense under this section for a period of 5 years after a prior conviction under this section, then all records and data relating to the prior conviction are confidential criminal justice information, as defined in 44-5-103, and public access to the information may only be obtained by district court order upon good cause shown.

(6) For the purpose of calculating subsequent convictions under this section, a conviction for a violation of 61-8-406 also constitutes a conviction for a violation of 61-8-401.

(7) The court may order that a term of imprisonment imposed under this section be served in another facility made available by the county and approved by the sentencing court. The defendant, if financially able, shall bear the expense of the imprisonment in the facility. The court may impose restrictions on the defendant's ability to leave the premises of the facility and require that the defendant follow the rules of that facility. The facility may be, but is not required to be, a community-based prerelease center as provided for in 53-1-203. The prerelease center may accept or reject a defendant referred by the sentencing court.

HeinOnline -- 1995 vol. IV 3300 1995

(ii) A vehicle used by a person as a common carrier in the transaction of business as a common carrier is not subject to forfeiture unless it appears that the owner or other person in charge of the vehicle consented to or was privy to the violation. A vehicle may not be forfeited under this section for any act or omission established by the owner to have been committed or omitted by a person other than the owner while the vehicle was unlawfully in the possession of a person other than the owner in violation of the criminal laws of this state or the United States.

(iii) Forfeiture of a vehicle encumbered by a security interest is subject to the secured person's interest if the person did not know and could not have reasonably known of the unlawful possession, use, or other act on which the forfeiture is sought.

(4) The provisions of 61-5-205(2), 61-5-208(2), and 61-11-203(2)(d), relating to revocation and suspension of driver's licenses, apply to any conviction under 61-8-406.

(5) In addition to the punishment provided in this section, regardless of disposition, the defendant shall complete an alcohol information course at an alcohol treatment program approved by the department of corrections and human services, which may *must* include alcohol or drug treatment, or both, ~~if considered necessary by the counselor conducting the program~~ *in accordance with the provisions of 61-8-714*. Each counselor providing education or treatment shall, at the commencement of the education or treatment, notify the court that the defendant has been enrolled in a course or treatment program. If the defendant fails to attend the course or the treatment program, the counselor shall notify the court of the failure.

(6) For the purpose of determining the number of convictions under this section, "conviction" means a final conviction, as defined in 45-2-101, in this state or a similar statute in another state or a forfeiture of bail or collateral deposited to secure the defendant's appearance in court in this state or another state, which forfeiture has not been vacated. An offender is considered to have been previously convicted for the purposes of sentencing if less than 5 years have elapsed between the commission of the present offense and a previous conviction. If there has been no additional conviction for an offense under this section for a period of 5 years after a prior conviction under this section, then the prior offense must be expunged from the defendant's record.

(7) The court may order that a term of imprisonment imposed under this section be served in another facility made available by the county and approved by the sentencing court. The defendant, if financially able, shall bear the expense of the imprisonment in the facility. The court may impose restrictions on the defendant's ability to leave the premises of the facility and require that the defendant follow the rules of that facility. The facility may be, but is not required to be, a community-based prerelease center as provided for in 53-1-203. (h) furniture, fixtures, and equipment, except that specifically included in another class, used in commercial establishments as defined in this section;

(i) x-ray and medical and dental equipment;

(j) citizens' band radios and mobile telephones;

(k) radio and television broadcasting and transmitting equipment;

(l) cable television systems;

(m) coal and ore haulers;

(n) theater projectors and sound equipment; and

(o) all other property not included in any other class in this part, except that property subject to a fee in lieu of a property tax.

(2) As used in this section, "coal and ore haulers" means nonhighway vehicles that exceed 18,000 pounds per axle and that are primarily designed and used to transport coal, ore, or other earthen material in a mining or quarrying environment.

(3) "Commercial establishment" includes any hotel; motel; office; petroleum marketing station; or service, wholesale, retail, or food-handling business.

(4) Class eight property is taxed at:

(a) 9% of its market value *for tax years ending on or before December 31, 1995;*

(b) 8% of its market value for tax year 1996;

(c) 7% of its market value for tax year 1997; and

(d) 6% of its market value for tax years beginning afte. December 31, 1997."

Section 2. Business equipment tax rate reduction reimbursement to local government taxing jurisdictions. (1) On or before January 1, 1996, for the reduction in payment under subsection (4) and by June 1 of 1996, 1997, and 1998, for all other reimbursements in this section, the department of revenue shall determine a reimbursement amount associated with reducing the tax rate in 15-6-138 and provide that information to each county treasurer. The reimbursement amount must be determined for each local government taxing jurisdiction that levied mills on the taxable value of property described in 15-6-138 in the corresponding tax year. However, the reimbursement does not apply to property described in 15-6-138 that has a reduced tax rate under 15-24-1402.

(2) (a) The reimbursement amount to be used as the basis for the payment reduction under subsection (4) is the product of multiplying the tax year 1995 taxable value of property described in 15-6-138 for each local government taxing jurisdiction by the tax year 1995 mill levy for the jurisdiction and then multiplying by 1/9th.

(b) (i) The reimbursement amount for each local government taxing jurisdiction for tax year 1996 is the amount determined under subsection (2)(a)

unless the tax year 1996 market value of property described in 15-6-138, for the particular local government taxing jurisdiction, is more than the tax year 1995 market value for property described in 15-6-138 in the same jurisdiction.

(ii) If the tax year 1996 market value is greater than the tax year 1995 market value for a particular jurisdiction, then the reimbursement amount for tax year 1996 is the result of subtracting the simulated 1996 tax from the 1995 tax. The 1995 tax is the tax for the particular jurisdiction, determined by multiplying the actual taxable valuation of property described in 15-6-138, for tax year 1995, by the tax year 1995 mill levy for the jurisdiction. The simulated 1996 tax for the particular jurisdiction is the actual tax year 1996 taxable value of property described in 15-6-138 multiplied by the tax year 1995 mill levy for the particular jurisdiction. If the simulated 1996 tax is greater than the 1995 tax, the reimbursement amount is zero.

(c) (i) The reimbursement amount for each local government taxing jurisdiction for tax year 1997 is the amount determined under subsection (2)(a) multiplied by two unless the tax year 1997 market value of property described in 15-6-138, for the particular local government taxing jurisdiction, is more than the tax year 1995 market value for property described in 15-6-138 in the same jurisdiction.

(ii) If the tax year 1997 market value is greater than the tax year 1995 market value for a particular jurisdiction, then the reimbursement amount for tax year 1997 is the result of subtracting the simulated 1997 tax from the 1995 tax. The 1995 tax is the tax for the particular jurisdiction, determined by multiplying the actual taxable valuation of property described in 15-6-138, for tax year 1995, by the tax year 1995 mill levy for the jurisdiction. The simulated 1997 tax for the particular jurisdiction is the actual tax year 1997 taxable value of property described in 15-6-138 multiplied by the tax year 1995 mill levy for the particular jurisdiction. If the simulated 1997 tax is greater than the 1995 tax, the reimbursement amount is zero.

(d) (i) The reimbursement amount for each local government taxing jurisdiction for tax year 1998 is the amount determined under subsection (2)(a) multiplied by three unless the tax year 1998 market value of property described in 15-6-138, for the particular local government taxing jurisdiction, is more than the tax year 1995 market value for property described in 15-6-138 in the same jurisdiction.

(ii) If the tax year 1998 market value is greater than the tax year 1995 market value for a particular jurisdiction, then the reimbursement amount for tax year 1998 is the result of subtracting the simulated 1998 tax from the 1995 tax. The 1995 tax is the tax for the particular jurisdiction, determined by multiplying the actual taxable valuation of property described in 15-6-138, for tax year 1995, by the tax year 1995 mill levy for the jurisdiction. The simulated 1998 tax for the particular jurisdiction is the actual tax year 1998 taxable value of property described in 15-6-138 multiplied by the tax year 1995 mill levy for the particular jurisdiction. If the simulated 1998 tax is greater than the 1995 tax, the reimbursement amount is zero.

(3) (a) For purposes of this section, "local government taxing jurisdiction" means a local government rather than a state taxing jurisdiction that levied mills against property described in 15-6-138, including county governments,

HeinOnline -- 1995 vol. IV 3309 1995

incorporated city and town governments, consolidated county and city governments, tax increment financing districts, local elementary and high school districts, local community college and vocational-technical center districts, miscellaneous districts, and special districts. The term includes countywide mills levied for equalization of school retirement or transportation.

(b) The term does not include county or state school equalization levies provided for in 20-9-331, 20-9-333, and 20-9-360 or the university levy provided for in 15-10-106. It also does not include any state levy for welfare programs provided for in 53-2-813.

(c) Each tax increment financing district must receive the benefit of the state mill on the incremental taxable value of the district.

(4) County treasurers shall reduce the county payment to the state for the levy imposed under 20-9-360 in June of 1996 by an amount equal to 38% of the reimbursement amount determined under subsection (2)(a) for all of the local government taxing jurisdictions in the county.

(5) County treasurers shall reduce the county payment to the state for the levy imposed under 20-9-360 in December of 1996 by an amount equal to 31% of the reimbursement amount for tax year 1996 for all of the local government taxing jurisdictions in the county, as determined by the department under subsection (2).

(6) County treasurers shall reduce the county payment to the state for the levy imposed under 20-9-360 in June of 1997 by an amount equal to 31% of the reimbursement amount for tax year 1996 for all of the local government taxing jurisdictions in the county and by an amount equal to 38% of the reimbursement amount for tax year 1997 for all of the local government taxing jurisdictions in the county, as determined by the department under subsection (2).

(7) County treasurers shall reduce the county payment to the state for the levy imposed under 20-9-360 in December of 1997 by an amount equal to 31% of the reimbursement amount for tax year 1997 for all of the local government taxing jurisdictions in the county, as determined by the department under subsection (2).

(8) County treasurers shall reduce the county payment to the state for the levy imposed under 20-9-360 in June of 1998 by an amount equal to 31% of the reimbursement amount for tax year 1997 for all of the local government taxing jurisdictions in the county and by an amount equal to 38% of the reimbursement amount for tax year 1998 for all of the local government taxing jurisdictions in the county, as determined by the department under subsection (2).

(9) County treasurers shall reduce the county payment to the state for the levy imposed under 20-9-360 in December of 1998 by an amount equal to 31% of the reimbursement amount for tax year 1998 for all of the local government taxing jurisdictions in the county, as determined by the department under subsection (2).

(10) County treasurers shall reduce the county payment to the state for the levy imposed under 20-9-360 in June of 1999 by an amount equal to 69% of the reimbursement amount for tax year 1998 for all of the local government taxing

jurisdictions in the county, as determined by the department under subsection (2).

(11) County treasurers shall reduce the county payment to the state for the levy imposed under 20-9-360 in December of the years 1999 through 2007 by an amount equal to 31% of the reimbursement amount determined in subsection (13) for all of the local government taxing jurisdictions in the county, as determined by the department under subsection (2).

(12) County treasurers shall reduce the county payment to the state for the levy imposed under 20-9-360 in June of the years 2000 through 2008 by an amount equal to 69% of the reimbursement amount determined in subsection (13) for all of the local government taxing jurisdictions in the county, as determined by the department under subsection (2).

(13) (a) The reimbursement amount for tax year 1999 and each subsequent tax year for 9 years must be progressively reduced each year by 10% of the reimbursement amount for tax year 1999, according to the following schedule:

Tax Year	Percentage of 1999 Reimbursement Amount
1999	90
2000	80
2001	70
2002	60
2003	50
2004	40
2005	30
2006	20
2007	10
2008 and following years	0

(b) The reimbursement amount for each tax year must be the basis for reducing the amount remitted to the state for the levy imposed under 20-9-360 in December of the same year and June of the following year.

(14) The county treasurer shall use the funds from the reduced payment to the state for the levy imposed under 20-9-360 to reimburse each local government taxing jurisdiction in the amount determined by the department under subsection (2). The reimbursement must be distributed to funds within local government taxing jurisdictions in the same manner as taxes on property described in 15-6-138 are distributed. The reimbursement in June must be distributed based on the prior year's mill levy, and the reimbursement in December must be based on the current year's mill levy.

(15) Each local government taxing jurisdiction receiving reimbursements shall consider the amount of reimbursement that will be received and lower the mill levy otherwise necessary to fund the budget by the amount that would otherwise have to be raised by the mill levy.

(16) A local government taxing jurisdiction that ceases to exist after [the effective date of this act] will no longer be considered for revenue loss or reimbursement purposes. A local government taxing jurisdiction that is created after January 1, 1996, will not be considered for revenue loss or reimbursement purposes. If a local government taxing jurisdiction that existed prior to January

HeinOnline -- 1995 vol. IV 3311 1995

of 1996 is split between two or more taxing jurisdictions or is annexed to or is consolidated with another taxing jurisdiction, the department shall determine how much of the revenue loss and reimbursement is attributed to the new jurisdictions.

Section 3. Task force — review of taxation and local government funding. (1) There is a Montana tax policy task force to study all aspects of taxation in Montana and to make findings regarding the burden of state and local taxation borne by various segments of the state's economy and by various categories of individual taxpayers. The task force in its study shall consider but not limit itself to:

(a) the existing sources and levels of taxation, with particular attention given to the classification of property and the taxable percentages applied to that property, and an evaluation of the sources and levels of taxation;

(b) the relationship between federal income tax laws and state income tax laws and the impact of federal tax laws on the state;

(c) the relative portion of the total amount of taxes that is collected from each segment of the business community and each category of individual taxpayer;

(d) the impact of state and local taxation on economic development;

(e) the relationship between taxes and the revenue needs of the state and local governments;

(f) the relationship between tax burden, ability to pay, and benefits received from government;

(g) alternative methods of taxation from existing sources as well as new sources of revenue and an evaluation of the alternative methods and new sources; and

(h) funding for local governments, other than public schools, because local governments have come under increasing financial pressures over the last several years and it is clear that viable solutions to funding issues must be found in order for Montana citizens to continue to receive those services traditionally provided by local governments.

(2) Based on the findings pursuant to the study required under subsection (1), the task force shall develop recommendations, alternatives, or both, for 2-year, 10-year, and 25-year tax policy strategies for Montana.

(3) The task force, in its deliberations, shall solicit the knowledge and advice of economists, tax policy experts, representatives of tax reform coalitions, local governments, small business organizations, large industries, agriculture, the Montana chamber of commerce, appropriate state agencies, and the general public.

(4) In reviewing local government funding, the task force shall study:

(a) the current sources of funding for local government services, other than public schools;

HeinOnline -- 1995 vol. IV 3312 1995

(b) the continued viability of current funding sources;

(c) the need for additional or alternative funding sources;

(d) the financial and funding restraints currently imposed on local governments;

(e) the challenges facing local governments in providing traditional services in the future;

(f) the need for more flexibility in meeting future financial challenges;

(g) the ability of local governments to meet their budget requirements in the future; and

(h) other issues related to local government finances.

(5) The task force is allocated to the department of revenue for administrative purposes only as provided in 2-15-121.

Section 4. Membership — appointment — vacancies. (1) The task force created by [section 3] is composed of the following members:

(a) eight members appointed by the governor, who are broadly representative of taxpayer groups, business and industry, labor organizations, local government, and consumers of governmental services;

(b) four members of the house of representatives, of which no more than two may be of the same political party, appointed by the speaker of the house; and

(c) four members of the senate, of which no more than two may be of the same political party, appointed by the committee on committees.

(2) Task force members must be appointed and designated no later than July 15, 1995.

(3) The task force shall elect its presiding officer.

(4) A vacancy occurring on the task force must be filled in the same manner as the original appointment.

Section 5. Remuneration. (1) Each member of the task force provided for in [section 3], except the legislative members, is entitled to reimbursement for expenses as provided in 2-18-501 through 2-18-503.

(2) Each legislative member of the task force is entitled to compensation as provided in 5-2-301 and 5-2-302, as applicable.

(3) In addition to expenditures referred to in subsections (1) and (2), task force funds may be spent for staff support, contracted services, and other expenses required to fulfill the purpose and needs of the task force.

Section 6. Meetings — report to governor and legislature. (1) The task force provided for in [section 3] shall meet by September 15, 1995, and at the request of the presiding officer thereafter.

HeinOnline -- 1995 vol. IV 3313 1995

(2) The task force shall submit its findings and recommendations to the governor and the legislature on or before October 1, 1996.

Section 7. Gifts and grants. The task force provided for in [section 3] may accept payments, contributions, gifts, and grants, in money or otherwise, for the purposes set forth in [section 3]. All payments, monetary contributions, gifts, and grants received by the task force must be deposited in an account in the state special revenue fund provided for in [section 8].

Section 8. Special revenue account. There is an account in the state special revenue fund. The account consists of all payments, monetary contributions, gifts, and grants received pursuant to [section 7].

Section 9. Section 15-1-111, MCA, is amended to read:

"15-1-111. Reimbursement to local governments and schools — duties of department and county treasurer — statutory appropriation. (1) Prior to September 1, 1990, the department's agent in the county shall supply the following information to the department for each taxing jurisdiction within the county:

(b) the number of mills levied in the jurisdiction for tax year 1990;

(c) the total taxable valuation for tax years 1989 and 1990, reported separately for each year, of all personal property not secured by real property; and

(d) the total taxable valuation for tax years 1989 and 1990, reported separately for each year, of all personal property secured by real property.

(2) After receipt of the information from its agent, the department shall calculate the amount of revenue lost to each taxing jurisdiction, using current year mill levies, due to the annual reduction in personal property tax rates set forth in 15-6-138, *prior to 1994*, and any reduction in taxes based upon recalculation of the effective tax rate for property in 15-6-145, *prior to 1994*. The department shall total the amounts for all taxing jurisdictions within the county.

(3) (a) The department shall remit to the county treasurer 50% of the amount of revenue reimbursable, determined pursuant to subsection (1), on or before November 30 and the remaining 50% on or before May 31.

(b) For tax year 1993 ~~and for each tax year thereafter~~ *through tax year 1998*, the department shall remit to the county treasurer of each county the same amount remitted to the county treasurer for the fiscal year 1991, as adjusted by the result of dissolved or combined taxing jurisdictions, as provided for in subsection (7). Fifty percent of the amount must be remitted on or before November 30 and the remaining 50% on or before May 31.

(c) (i) For tax year 1999 through tax year 2008, the department shall remit to the county treasurer of each county the same amount remitted to the county treasurer for the fiscal year 1991, progressively reduced by 10% of the 1991 amount each year, in accordance with the following schedule:

Tax Year	*Percentage of 1991 Remittance Amount*
1999	*90*

(ii) The amount remitted must be adjusted by the result of dissolved or combined taxing jurisdictions, as provided for in subsection (7). Fifty percent of the amount must be remitted on or before November 30 and the remaining 50% on or before May 31.

(4) Upon receipt of the reimbursement from the department, the county treasurer shall distribute the reimbursement to each taxing jurisdiction as calculated by the department.

(5) For the purposes of this section and subject to subsection (7), "taxing jurisdiction" means a jurisdiction levying mills against personal property and includes but is not limited to a county, city, school district, tax increment financing district, and miscellaneous taxing district and the state of Montana.

(6) The amounts necessary for the administration of this section are statutorily appropriated, as provided in 17-7-502, from the general fund to reimburse eligible taxing jurisdictions for reductions in tax rates on personal property.

(7) The following apply to taxing jurisdictions that were altered after tax year 1989:

(a) A taxing jurisdiction that existed in tax year 1989 and that no longer exists is not entitled to reimbursement under this section.

(b) A taxing jurisdiction that existed in tax year 1989 and that is split into two or more taxing jurisdictions *or that is annexed to or is consolidated with another taxing jurisdiction* is entitled to reimbursement based on the portion of 1989 taxable value within each new taxing jurisdiction. The department shall determine the portion of 1989 taxable value located in each taxing jurisdiction.

(c) A taxing jurisdiction that did not exist in tax year 1989 is not entitled to reimbursement under this section unless the jurisdiction was created as described in subsection (7)(b)."

Section 10. Section 15-24-102, MCA, is amended to read:

"15-24-102. Valuation of interstate fleets — determination of aggregate tax due — exemption from mill levies. The department of revenue shall assess the taxable vehicles of any interstate motor vehicle fleet making application for proportional registration, as follows:

HeinOnline -- 1995 vol. IV 3315 1995

(1) The purchase price of the taxable vehicles depreciated by a schedule as prescribed by the department determines the depreciated value.

(2) The depreciated value multiplied by the percent of miles traveled in Montana, as prescribed by 61-3-721, is the market value.

(3) The sum of the market value of all taxable vehicles included in the fleet multiplied by ~~9%~~ *the tax rate for class eight property in 15-6-138* is the taxable value for the entire fleet as provided in 15-6-138.

(4) To determine the amount of tax due, the taxable value of the entire fleet must be multiplied by the statewide average county mill levy plus state levies as provided in 15-24-103.

(5) To determine the tax due under this chapter, state levies applicable to interstate motor vehicle fleets include but are not limited to levies imposed under 15-10-101, 15-10-106, 20-9-331, 20-9-333, 20-9-360, and 53-2-813.

(6) All taxes and fees collected on motor vehicle fleets under this chapter must be deposited and distributed as provided in 15-24-105."

Section 11. Section 7-7-2101, MCA, is amended to read:

"**7-7-2101. Limitation on amount of county indebtedness.** (1) A county may not become indebted in any manner or for any purpose to an amount, including existing indebtedness, in the aggregate exceeding 23% of the total of the taxable value of the property in the county subject to taxation, plus the amount of taxes levied on new production, production from horizontally completed wells, and incremental production divided by the appropriate tax rates described in 15-23-607(2)(a), (2)(b), or (2)(c) and multiplied by 60%, plus the amount of value represented by new production and production from horizontally completed wells exempted from tax as provided in 15-23-612 multiplied by 60%, plus the value of any other production occurring after December 31, 1988, multiplied by 60%, as ascertained by the last assessment for state and county taxes previous to the incurring of the indebtedness, *plus, for indebtedness to be incurred during fiscal year 1997, an additional 11% of the taxable value of class eight property within the county for tax year 1995, for indebtedness to be incurred during fiscal year 1998, an additional 22% of the taxable value of class eight property within the county for tax year 1995, and for indebtedness to be incurred during fiscal years 1999 through 2008, an additional 33% of the taxable value of class eight property within the county for tax year 1995, in each case of class eight property, multiplied by 23%.*

(2) The issuing of bonds for the purpose of funding or refunding outstanding warrants or bonds is not the incurring of a new or additional indebtedness but is merely the changing of the evidence of outstanding indebtedness.

(3) The limitation in subsection (1) does not apply to bonds issued for the repayment of tax protests lost by the city or town."

Section 14. Section 7-7-4202, MCA, is amended to read:

Section 15. Section 20-9-406, MCA, is amended to read:

"**20-9-406. (b) Except as provided in subsection (1)(c), the maximum amount for which a K-12 school district, as formed pursuant to 20-6-701, may become indebted by the issuance of bonds, including all indebtedness represented by outstanding bonds of previous issues and registered warrants, is up to 90% of the taxable value of the property subject to taxation as *to be* ascertained by the last-completed assessment for state, county, and school taxes previous to the incurring of the indebtedness, *plus, for bonds to be issued during fiscal year 1997, an additional 11% of the taxable value of class eight property within the district for tax year 1995, for bonds to be issued during fiscal year 1998, an additional 22% of the taxable value of class eight property within the district for tax year 1995, and for bonds to be issued during fiscal years 1999 through 2008, an additional 33% of the taxable value of class eight property within the district for tax year 1995, in each case of class eight property, multiplied by 90%.* The total indebtedness of the high school district with an attached elementary district must be limited to the sum of 45% of the taxable value of the property for elementary school program purposes and 45% of the taxable value of the property for bigh school program purposes, *adjusted as provided in this section.*

(c) The maximum amount for which an elementary district or a high school district that qualifies for guaranteed tax base aid under the provisions of 20-9-367 may become indebted by the issuance of bonds, including all indebtedness represented by outstanding bonds of previous issues and registered warrants, is 45% of the corresponding statewide mill value per ANB times 1,000 times the ANB of the district. For a K-12 district, the maximum amount for which the district may become indebted is 45% of the sum of the statewide mill value per elementary ANB times 1,000 times the elementary ANB of the district and the statewide mill value per high school ANB times 1,000 times the high school ANB of the district.

(2) The maximum amounts determined in subsection (1), however, may not pertain to indebtedness imposed by special improvement district obligations or assessments against the school district or to bonds issued for the repayment of tax protests lost by the district. All bonds issued in excess of the amount are void, except as provided in this section.

(3) When the total indebtedness of a school district has reached the limitations prescribed in this section, the school district may pay all reasonable and necessary expenses of the school district on a cash basis in accordance with the financial administration provisions of this chapter.

(4) Whenever bonds are issued for the purpose of refunding bonds, any money to the credit of the debt service fund for the payment of the bonds to be refunded is applied toward the payment of the bonds and the refunding bond issue is decreased accordingly."

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 15-36-101, MCA, is amended to read:

"**15-36-101. Definitions and rate of tax — state severance tax — local government severance tax — assessment of nonworking interest owner — exemption.** (1) ~~Every~~ *Each* person ~~engaging in or carrying on the business of producing~~ *who produces* petroleum, other mineral or crude oil, or natural gas within this state or ~~engaging in or carrying on the business of owning, controlling, managing, leasing, or operating~~ *who owns, controls, manages, leases, or operates* within this state any well or wells from which any ~~merchantable or~~ marketable petroleum, other mineral or crude oil, or natural gas is ~~extracted or~~ produced shall, except as provided in 15-36-121, ~~each year when engaged in or carrying on the business in this state~~ pay to the department of revenue a state severance tax for deposit in the *state* general fund, ~~of the state of Montana~~ plus a local government severance tax in lieu of a tax on net proceeds for replacement of property taxes formerly levied on net proceeds. Except as provided in subsection (3), the state severance tax and the local government severance tax are as follows:

(a) except as provided in *15-36-121 and in* subsections (1)(b) through (1)(f) *of this section*, a 5% state severance tax on the gross taxable value of all the petroleum and other mineral or crude oil produced by the person, plus the local government severance tax of 8.4% on the gross taxable value, as defined in subsection (8)(a)(ii), of all the petroleum and other mineral or crude oil produced by the person, other than new production, from each lease or unit; but in determining the amount of the state severance tax and local government

severance tax, there must be excluded from consideration all petroleum or other crude or mineral oil produced and used by the person during the year in connection with the person's operations in prospecting for, developing, and producing the petroleum or crude or mineral oil;

(b) a 2.65% state severance tax on the gross taxable value of all natural gas produced by the person, plus the local government severance tax of 15.25% on the gross taxable value, as defined in subsection (8)(a)(ii), of all natural gas produced by the person, other than new production, from each lease or unit; but in determining the amount of the state severance tax and the local government severance tax, there must be excluded from consideration all gas produced and used by the person during the year in connection with the person's operations in prospecting for, developing, and producing the gas or petroleum or crude or mineral oil; and there must also be excluded from consideration all gas, including carbon dioxide gas, recycled or reinjected into the ground;

(c) except as provided in subsection (4)(a), a 3% state severance tax on the gross taxable value of the incremental production of petroleum and other mineral or crude oil produced from a secondary recovery project commenced or expanded after December 31, 1993, and before January 1, 2002, plus the local government severance tax of 5% on the gross taxable value, as defined in subsection (8)(a)(ii), of the incremental petroleum and other mineral or crude oil produced by the person, other than new production, from each lease or unit in a secondary recovery project commenced or expanded after December 31, 1993, and before January 1, 2002. For purposes of this section, a secondary recovery project must meet each of the following requirements:

(i) The project must be certified as a secondary recovery project to the department by the board. The certification may be extended only after notice and hearing in accordance with Title 2, chapter 4.

(ii) The property to be affected by the project must be adequately delineated according to the specifications required by the board.

(iii) The project must involve the application of secondary recovery methods that can reasonably be expected to result in an increase, determined by the board to be significant in light of all the facts and circumstances, in the amount of petroleum or mineral or crude oil that may potentially be recovered. For purposes of this section, secondary recovery methods include but are not limited to:

(A) the injection of water into the producing formation for the purposes of maintaining pressure in that formation or for the purpose of increasing the flow of petroleum or mineral or crude oil from the producing formation to a producing well bore; or

(B) any other method approved by the board as a secondary recovery method.

(d) a 2.5% state severance tax on the gross taxable value of the incremental petroleum and other mineral or crude oil produced by the person, plus the local government severance tax of 5% on the gross taxable value, as defined in subsection (8)(a)(ii), of the incremental petroleum and other mineral or crude oil produced by the person, other than new production, from each lease or unit

in a tertiary recovery project after July 1, 1985. For purposes of this section, a tertiary recovery project must meet each of the following requirements:

(i) The project must be approved as a tertiary recovery project by the board of oil and gas conservation. The approval may be extended only after notice and hearing in accordance with Title 2, chapter 4.

(ii) The property to be affected by the project must be adequately delineated according to the specifications required by the board.

(iii) The project must involve the application of one or more tertiary recovery methods that can reasonably be expected to result in an increase, determined by the board to be significant in light of all the facts and circumstances, in the amount of crude oil that may potentially be recovered. For purposes of this section, tertiary recovery methods include but are not limited to:

(A) miscible fluid displacement;

(B) steam drive injection;

(C) micellar/emulsion flooding;

(D) in situ combustion;

(E) polymer augmented water flooding;

(F) cyclic steam injection;

(G) alkaline or caustic flooding;

(H) carbon dioxide water flooding;

(I) immiscible carbon dioxide displacement; or

(J) any other method approved by the board as a tertiary recovery method.

(e) except as provided in subsection (4)(b), a 2% state severance tax on the gross taxable value of the incremental petroleum and other mineral or crude oil produced by the person, plus the local government severance tax of 3.3% on the gross taxable value, as defined in subsection (8)(a)(ii), of the incremental petroleum and other mineral or crude oil produced by the person, other than new production, from each lease or unit in a tertiary recovery project commenced or expanded after December 31, 1993, and before January 1, 2002. The tertiary recovery project must meet the requirements of subsections (1)(d)(i) through (1)(d)(iii).

(f) a 5% local government severance tax on the gross taxable value, as defined in subsection (8)(a)(ii), of all petroleum and other mineral or crude oil produced by the person other than new production produced by *from* a stripper well, as defined in subsection (9).

(2) For purposes of this section, the following definitions apply:

(a) "Board" means the board of oil and gas conservation.

(b) "Enhanced recovery project" means the use of any process for the displacement of oil from the earth other than primary recovery and includes the use of an immiscible, miscible, chemical, thermal, or biological process.

(c) "Existing enhanced recovery project" means an enhanced recovery project tbat began development before January 1, 1994.

(d) "Expanded enhanced recovery project" or "expansion" means the addition of injection wells or production wells, the change of injection pattern, or other operating cbanges to an existing enhanced recovery project that will result in the recovery of oil that would not otherwise be recovered.

(e) "Incremental production" means:

(i) the volume of oil produced by either a well in primary recovery recompleted as a horizontally completed well or by an expanded enhanced recovery project, which volume of production is in excess of the production decline rate established under the conditions existing before:

(A) the commencement of the recompletion of a well as a horizontally completed well;

(B) expansion of the existing enhanced recovery project; or

(C) commencing a new enhanced recovery project; or

(ii) in the case of any project that had no taxable production prior to commencing the enhanced recovery project, all production of petroleum or mineral or crude oil from the enhanced recovery project.

(f) "New enhanced recovery project" means an enhanced recovery project that began development after December 31, 1993, and before January 1, 2002.

(g) "Operator" or "producer" means the person responsible for the actual physical operation of an enhanced recovery project.

(h) "Primary recovery" means the displacement of oil from the earth into the well bore by means of the natural pressure of the oil reservoir and includes artificial lift.

(i) "Production decline rate" means the projected rate of future oil production, extrapolated by a method approved by the board, that must be determined for a project area prior to commencing a new or expanded secondary recovery project or the recompletion of a well as a horizontally completed well. The approved production decline rate must be certified in writing to the department of revenue by the board. In that certification, the board shall identify the project area and shall specify the projected rate of future oil production by calendar year and by calendar quarter within each year. The certified rate of future oil production must be used to determine the volume of incremental production that qualifies for the tax rate imposed under subsection (1)(c) or (1)(e).

(j) "Secondary recovery project" means an enhanced recovery project that is not a tertiary recovery project.

HeinOnline -- 1995 vol. IV 3323 1995

(k) "Tertiary recovery project" means an enhanced recovery project using a tertiary recovery method described in subsection (1)(d)(iii).

(3) (a) A local government severance tax is imposed on the gross value paid in cash or apportioned in kind to a nonworking interest owner by the operator or producer of extracted marketable petroleum, other mineral or crude oil, or natural gas subject to local government severance taxes imposed under this chapter. The local government severance tax on nonworking interest owners is computed at the following rates:

(i) 12.5% on the gross value paid in cash or apportioned in kind to a nonworking interest owner by the operator or producer of extracted marketable petroleum and other mineral or crude oil;

(ii) 15.25% on the gross value paid in cash or apportioned in kind to a nonworking interest owner by the operator or producer of extracted or marketable natural gas.

(b) The amounts paid or apportioned in kind to nonworking interest owners are exempt from the local government severance taxes imposed under 15-36-121(2) and under subsections (1)(a) through (1)(f) of this section.

(4) (a) Incremental production from a secondary recovery project is subject to the tax rate imposed in subsection (1)(c) if the average price per barrel of oil as reported in the Wall Street Journal for west Texas intermediate crude oil during a calendar quarter is less than $30 a barrel. If the price of oil is equal to or greater than $30 per barrel in a calendar quarter as determined in subsection (5), incremental production from a secondary recovery project is taxed as provided in subsection (1)(a) for production occurring in that quarter.

(b) Incremental production from a tertiary recovery project is subject to the tax rate imposed in subsection (1)(e) if the average price per barrel of oil as reported in the Wall Street Journal for west Texas intermediate crude oil during a calendar quarter is less than $30 a barrel. If the price of oil is equal to or greater than $30 per barrel in a calendar quarter as determined in subsection (5), incremental production from a tertiary recovery project is taxed as provided in subsection (1)(d) for production occurring in that quarter.

(5) For the purposes of *15-36-121(3) and for the purposes of* subsections (4)(a) and (4)(b) *of this section*, the average price per barrel must be computed by dividing the sum of the daily price for west Texas intermediate crude oil as reported in the Wall Street Journal for the calendar quarter by the number of days on which the price was reported in the quarter.

(6) ~~Nothing in this~~ *This* part may *not* be construed as requiring laborers or employees hired or employed by any person to drill any oil or natural gas well or to work in or about any oil or natural gas well or prospect or explore for or do any work for the purpose of developing any petroleum, other mineral or crude oil, or natural gas to pay the severance tax, nor may work done or the drilling of a well or wells for the purpose of prospecting or exploring for petroleum, other mineral or crude oil, or natural gas or for the purpose of developing them be considered to be the engaging in or carrying on of the business. If, in the doing of any work, in the drilling of any oil or natural gas well, or in prospecting, exploring, or development work, any merchantable or marketable petroleum,

HeinOnline -- 1995 vol. IV 3324 1995

other mineral or crude oil, or natural gas in excess of the quantity required by the person for carrying on the operation is produced sufficient in quantity to justify the marketing of the petroleum, other mineral or crude oil, or natural gas, the work, drilling, prospecting, exploring, or development work is considered to be the engaging in and carrying on of the business of producing petroleum, other mineral or crude oil, or natural gas within this state within the meaning of this section.

(7) Every *Each* person required to pay the state or local government severance tax under this section shall pay the tax in full for the person's own account and for the account of each of the other owners of the gross proceeds in value or in kind of all the marketable petroleum or other mineral or crude oil or natural gas extracted and produced, including an owner or owners of working interest, royalty interest, overriding royalty interest, carried working interest, net proceeds interest, production payments, and all other interest or interests owned or carved out of the total gross proceeds in value or in kind of the extracted marketable petroleum or other mineral or crude oil or natural gas, except that any of the interests that are owned by the federal, state, county, or municipal governments are exempt from taxation under this chapter. Unless otherwise provided in a contract or lease, the pro rata share of any royalty owner or owners will be deducted from any settlements under the lease or leases or division of proceeds orders or other contracts.

(8) For purposes of this section, the following definitions apply:

(a) (i) "Gross taxable value", for the purpose of computing the state severance tax, means the gross value of the product as determined in 15-36-103.

(ii) "Gross taxable value", for the purpose of computing the local government severance tax, means the gross value of the product as determined in 15-36-103 less the gross value paid in cash or apportioned in kind to a nonworking interest owner by the operator or producer of extracted marketable petroleum, other mineral or crude oil, or natural gas.

(b) "Nonworking interest owner" means any interest owner who does not share in the development and operation costs of the lease or unit.

(9) For the purposes of this section, "stripper well" means a well that produces less than 10 barrels a day, determined by dividing the amount of production from a lease or unitized area for the year prior to the current calendar year by the number of producing wells in the lease or unitized area and by dividing the resulting quotient by 365."

Section 2. Section 15-36-121, MCA, is amended to read:

"15-36-121. Exemption from state severance tax — imposition of local government severance tax. (1) It is the public policy of this state to promote a sufficient supply of natural gas to provide for the residents of this state, to lessen Montana's dependence on imported natural gas, and to encourage the exploration for and development and production of natural gas, petroleum, and other mineral and crude oil within the state.

(2) All the natural gas produced from any well that has produced 60,000 cubic feet or less of natural gas a day for the calendar year prior to the current year shall *must* be taxed as provided in this section. Production must be

HeinOnline -- 1995 vol. IV 3325 1995

determined by dividing the amount of production from a lease or unitized area for the year prior to the current calendar year by the number of producing wells in the lease or unitized area and by dividing the resulting quotient by 365. The first 30,000 cubic feet of average daily production per well is exempt from all of the state severance tax imposed by 15-36-101. The first 30,000 cubic feet of average daily production per well is subject to a local government severance tax of 10% on the gross taxable value, as defined in 15-36-101(6)(a)(ii). Everything over 30,000 cubic feet of gas produced is taxed at 1.59% on the gross taxable value for the state severance tax, plus a local government severance tax of 10% on the gross taxable value, as defined in 15-36-101(6)(a)(ii)*(8)(a)(ii)*.

(3)(a) Except as provided in subsection (3)(b), the first 3 barrels a day of petroleum and other mineral or crude oil produced by a stripper well are exempt from the state severance tax imposed by 15-36-101, but not from the local government severance tax, if the average price per barrel of oil as reported in the Wall Street Journal for west Texas intermediate crude oil during a calendar quarter is less than $30 a barrel. If the price of oil is equal to or greater than $30 per barrel in a calendar quarter as determined in 15-36-101(5), the first 3 barrels a day of stripper well production are taxed as provided in 15-36-101(1)(a) for production occurring in that quarter.

(b) The exemption allowed under subsection (3)(a) does not apply to the gross value paid in cash or apportioned in kind to a nonworking interest owner.

(3)*(4)* Notwithstanding the provisions of subsection *subsections* (2) *and (3)*, all reporting requirements under the state severance tax remain in effect."

Section 3. Coordination instruction. If Senate Bill No. 412 is passed and approved, then Senate Bill No. 412 is amended as provided in subsections (1) and (2) of this section and the distribution of revenue must be modified as provided in subsection (3) of this section. If necessary, the code commissioner shall correct all erroneous internal references within Senate Bill No. 412 caused by this section.

(1) The definition section, [section 3], of Senate Bill No. 412, is amended by adding the following definition, in alphabetical order, and renumbering subsequent subsections:

"(20) "Stripper exemption" means the first 3 barrels a day for petroleum and other mineral or crude oil produced by a stripper well if the average price per barrel of oil as reported in the Wall Street Journal for west Texas intermediate crude oil during a calendar quarter is less than $30 a barrel. If the price of oil is equal to or greater than $30 a barrel in a calendar quarter, there is no stripper exemption in that quarter. The average price per barrel is computed by dividing the sum of the daily price for west Texas intermediate crude oil as reported in the Wall Street Journal for the calendar quarter by the number of days on which the price was reported in the quarter."

(2)(a) The section imposing tax rates, [section 4], of Senate Bill No. 412, is amended by amending subsection (4)(b) as follows:

Following: (ii) post-1985 wells"

Insert: " (iii) stripper exemption production "

HeinOnline -- 1995 vol. IV 3326 1995

(A) pre-1985 wells [a%] [b%]

(B) post-1985 wells [a%] [c%]

(b) The rate "a%" is 5 percentage points less than the rate for stripper oil production working interest pre-1985 and post-1985, including all changes to that rate resulting from bills other than [this act]. The rate "b%" is the same rate as stripper oil production nonworking interest pre-1985, including all changes to that rate resulting from bills other than [this act]. The rate "c%" is the same rate as stripper oil production nonworking interest post-1985, including all changes to that rate resulting from bills other than [this act].

(3) The department of revenue shall, by rule, change the formula under [section 18] of Senate Bill No. 412 for distribution of taxes collected under [section 4] of Senate Bill No. 412. In recalculating distribution rates for the revenue raised by Senate Bill No. 412, the department of revenue shall determine the revised rate according to a formula that presumes that the reduction in the tax rate for a working interest between subsections (4)(b)(iii)(A) and (4)(b)(iii)(B) of [section 4] of Senate Bill No. 412 is to be borne by the state and not local governments.

Section 4. Contingent voidness. In order to maintain a balanced budget, because [this act] reduces revenue, it may not be transmitted to the governor unless a corresponding identified reduction in spending is contained in House Bill No. 2. If a corresponding identified reduction in spending is not contained in House Bill No. 2, [this act] is void.

Section 5. Effective date — applicability. [This act] is effective July 1, 1995, and applies to all oil produced during the quarters beginning on or after July 1, 1995.

Approved May 1, 1995

Section 2. Signature alternatives for electronically filed returns. For purposes of this part, the director of revenue may prescribe, by rule, methods for the signing, subscribing, or verifying of the electronically filed tax returns required to be filed by this part. Returns electronically filed in accordance with the methods adopted by rule have the same validity and consequences as physical forms signed by a taxpayer.

Section 3. Remittance of old fund liability tax. An employer who is not required to withhold wages pursuant to 15-30-202 but who had an old fund liability tax obligation under 39-71-2503 during the preceding lookback period, as defined in 15-30-201, is subject to the same remittance schedules and filing requirements provided in 15-30-204 as employers paying wages subject to state income tax withholding under 15-30-202.

Section 4. Section 15-30-201, MCA, is amended to read:

"15-30-201. Definitions. When used in 15-30-201 through 15-30-209, the following definitions apply:

(iii) for the preceding year for employers subject to the payment schedule contained in 15-30-204(3)(a).

(b) There is imposed on each employee, except workers engaged in the rail industry who are under the jurisdiction of the federal railroad administration, United States department of transportation, an old fund liability tax, as provided in 39-71-2505, on the employee's wages ~~in the preceding calendar quarter~~. *Each employer making payment of wages for services performed in this state shall deduct and withhold the tax from the wages.*

The corporation is not liable for the tax on the corporate officer's wages.

(f) This old fund liability tax must be used to reduce the unfunded liability in the state fund incurred for claims for injuries resulting from accidents that occurred before July 1, 1990. If one or more loans or bonds are outstanding, the legislature may not reduce the security for repayment of the outstanding loans or bonds, except that the legislature may forgive payment of a tax or reduce a tax rate for any 12-month period if the workers' compensation bond repayment account contains on the first day of that period an amount, regardless of the source, that is in excess of the reserve maintained in the account and that is equal to the amount needed to pay and dedicated to the payment of the principal, premium, and interest that must be paid during that period on the outstanding loans or bonds.

(2) All collections of the tax must be deposited as received in the tax account. The tax is in addition to any other tax or fee assessed against persons subject to the tax.

(3) (a) ~~On or before the last day of April, July, October, and January, each employer subject to the tax shall file a return in the form and containing the information required by the department and, except as provided in subsection (3)(b), pay the amount of tax required by this section to be paid on the employer's payroll for the preceding calendar quarter and in addition shall remit withholdings for employees' old fund liability taxes at the same time.~~

~~(b) An employer subject to 15-30-204(2) shall remit to the department a weekly payment with its weekly withholding tax payment in the amount required by subsection (1)(a) and shall remit withholdings for employees' old fund liability taxes at the same time.~~

(c) Tax payments *and returns* required by subsections (1)(a) and (1)(b) must be made ~~with the return filed~~ pursuant to 15-30-204. The department shall first credit a payment to the liability under 15-30-202 and credit any remainder to the workers' compensation tax account provided in 39-71-2504.

~~(d)~~*(b)* Tax payments due from sole proprietors, subchapter S. corporation shareholders, partners of partnerships, and members or managers of limited liability companies must be made with and at the same time as the returns filed pursuant to 15-30-144 and 15-30-241. The department shall first credit a payment to the liability under 15-30-103 or 15-30-202 and shall then credit any remainder to the workers' compensation tax account provided in 39-71-2504.

(4) An employer's officer or employee with the duty to collect, account for, and pay to the department the amounts due under this section who fails to pay an amount is liable to the state for the unpaid amount and any penalty and interest relating to that amount.

(5) Returns and remittances under subsection (3) and any information obtained by the department during an audit are subject to the provisions of 15-30-303, but the department may disclose the information to the department of labor and industry under circumstances and conditions that ensure the continued confidentiality of the information.

(6) The department of labor and industry and the state fund shall~~, on July 1, 1991, or as soon after that date as possible,~~ give the department a list of all employers having coverage under any plan administered or regulated by the department of labor and industry and the state fund. ~~After the lists have been given to the department, the~~ *The* department of labor and industry and the state fund shall update the lists weekly. The department of labor and industry and the state fund shall provide the department with access to their computer data

bases and paper files and records for the purpose of the department's administration of the tax imposed by this section.

(7) The provisions of Title 15, chapter 30, not in conflict with the provisions of this part regarding administration, remedies, enforcement, collections, hearings, interest, deficiency assessments, credits for overpayment, statute of limitations, penalties, estimated taxes, and department rulemaking authority apply to the tax, to employers, to employees, to sole proprietors, to subchapter S. corporation shareholders, to partners of partnerships, to members or managers of limited liability companies, and to the department."

Section 8. Section 15-30-149, MCA, is amended to read:

"**15-30-149. Credits and refunds — period of limitations.** (1) If the department discovers from the examination of a return or upon claim duly filed by a taxpayer or upon final judgment of a court that the amount of income tax collected is in excess of the amount due or that any penalty or interest was erroneously or illegally collected, the amount of the overpayment must be credited against any income tax, penalty, or interest then due from the taxpayer and the balance of the excess must be refunded to the taxpayer.

(2) (a) A credit or refund under the provisions of this section may be allowed only if, prior to the expiration of the period provided by 15-30-146 and 15-30-147, the taxpayer files a claim or the department determines there has been an overpayment.

(b) If an overpayment of tax results from a net operating loss carryback, the overpayment may be refunded or credited within the period that expires on the 15th day of the 40th month following the close of the taxable year of the net operating loss if that period expires later than 5 years from the due date of the return for the year to which the net operating loss is carried back.

(3) Within 6 months after a claim for refund is filed, the department shall examine the claim and either approve or disapprove it. If the claim is approved, the credit or refund must be made to the taxpayer within 60 days after the claim is approved. If the claim is disallowed, the department shall notify the taxpayer and a review of the determination of the department may be pursued as provided in 15-1-211.

(4) Interest is allowed on overpayments at the same rate as charged on delinquent taxes. Interest is payable from the due date of the return or from the date of the overpayment, whichever date is later, to the date the department approves refunding or crediting of the overpayment. With respect to tax paid by withholding or by estimate, the date of overpayment is the date on which the return for the taxable year was due. Interest does not accrue on an overpayment if the taxpayer elects to have it applied to the taxpayer's estimated tax for the succeeding taxable year. Interest does not accrue during any period the processing of a claim for refund is delayed more than 30 days by reason of failure of the taxpayer to furnish information requested by the department for the purpose of verifying the amount of the overpayment. Interest is not allowed if:

(a) the overpayment is refunded within 6 months *45 days* from the date the return is due or the date the return is filed, whichever date is later;

(b) the overpayment results from the carryback of a net operating loss; or

HeinOnline -- 1995 vol. IV 3335 1995

(c) the amount of interest is less than $1.

(5) An overpayment not made incident to a bona fide and orderly discharge of an actual income tax liability or one reasonably assumed to be imposed by this law is not considered an overpayment with respect to which interest is allowable."

Section 9. Remittance of tax for fourth quarter of 1995 — filing of required employer returns. Notwithstanding the provisions of [sections 1 and 6], the provisions of 15-30-204 and 15-30-207, as they read on January 1, 1995, govern and control the payment of tax for wages paid during 1995 and the filing of all required employer returns.

Section 10. Codification instruction. (1) [Sections 1 and 2] are intended to be codified as an integral part of Title 15, chapter 30, part 2, and the provisions of Title 15, chapter 30, part 2, apply to [sections 1 and 2].

(2) [Section 3] is intended to be codified as an integral part of Title 39, chapter 71, part 25, and the provisions of Title 39, chapter 71, part 25, apply to [section 3].

Section 11. Effective date — applicability. [This act] is effective on passage and approval and applies to tax years beginning after December 31, 1995, and to state income withholding taxes and old fund liability taxes due for calendar year 1996 and thereafter.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 82-11-131, MCA, is amended to read:

"**82-11-131. Privilege and license tax.** (1) For the purpose of providing funds for defraying the expenses of the operation and enforcement of this chapter and expenses of the board, an operator or producer of oil and gas shall pay an assessment not to exceed ~~2/10~~ *3/10* of 1% of the market value of each barrel of crude petroleum originally produced, saved and marketed, or stored within the state or exported from the state and the same rate on the market value of each 10,000 cubic feet of natural gas produced, saved and marketed, or stored within the state or exported ~~therefrom~~ *from the state*.

(2) The board shall, by rule adopted pursuant to the provisions of the Montana Administrative Procedure Act, fix the amount of the assessment and may from time to time reduce or increase the amount thereof *of the assessment* as the expenses chargeable against the oil and gas conservation fund may

require. However, the assessment fixed by the board may not exceed the limits prescribed in this section. The amount of the assessment shall *must* be a percentage factor, (not to exceed 100%), of the rate set forth in subsection (1) above, and the same percentage factor shall *must* be applied by the board in fixing the amount of the assessment on each barrel of crude production *petroleum produced* and each 10,000 cubic feet of natural gas mentioned in that subsection *produced*. A producer of the crude petroleum and natural gas shall pay the assessment on each barrel of crude petroleum and each 10,000 cubic feet of natural gas produced for himself *the producer*, as well as for another, including a royalty holder. ~~, and the~~ *The* producer shall *must* be reimbursed for the payments made on crude oil and natural gas produced for another in the same manner as he *the producer* is reimbursed for net proceeds tax paid under 15-23-607 on crude petroleum or natural gas produced for another.

(3) The department of revenue shall collect the privilege and license tax assessment in the same manner as the oil and gas severance tax is collected under Title 15, chapter 36."

Section 2. Coordination instruction. (1) If Senate Bill No. 412 is passed and approved, then Senate Bill No. 412 is further amended as follows:

(a) The section imposing tax rates, [section 4] of Senate Bill No. 412, must be amended by subtracting 0.2% from all tax rates for oil and natural gas, for both the working interest and nonworking interest. The 0.2% decrease must be made regardless of other changes to those rates resulting from bills other than [this act].

(b) The section imposing tax rates on natural gas and oil production, [section 4] of Senate Bill No. 412, is amended by adding the following subsection:

"(6) The tax rates imposed under subsections (2) and (4) on working interest owners and nonworking interest owners must be adjusted to include the privilege and license tax adopted by the board of oil and gas conservation pursuant to 82-11-131."

(c) The department of revenue shall, by rule, change the formula under [section 18] of Senate Bill No. 412 for distribution of taxes collected under [section 4] of Senate Bill No. 412. In recalculating distribution rates for the revenue raised by Senate Bill No. 412, the department of revenue shall determine the revised rate according to a formula that distributes an amount equal to the rate adopted by the board pursuant to 82-11-131 for expenses of the board of oil and gas conservation as provided in 82-11-135.

(d) The repealer section, [section 49] of Senate Bill No. 412, which repeals 82-11-131, is amended to strike that section in [section 49]. The title provision of Senate Bill No. 412 relating to repealing sections is amended to strike 82-11-131.

(2) If Senate Bill No. 412 is passed and approved, then 82-11-131(2) as amended by [this act] is further amended by striking the last sentence in that subsection as follows:

"~~*The* producer shall *must* be reimbursed for the payments made on crude oil and natural gas produced for another in the same manner as he *the producer* is~~

~~reimbursed for net proceeds tax paid under 15-23-607 on crude petroleum or natural gas produced for another.~~"

(3) If Senate Bill No. 412 is passed and approved, then 82-11-131(3) is amended to read as follows:

"(3) ~~The department of revenue shall collect~~ *For the purposes of this section, the provisions of [sections 1 through 20 of Senate Bill No. 412] apply to* the privilege and license tax assessment ~~in the same manner as the oil and gas severance tax is collected under Title 15, chapter 36.~~"

Section 3. Effective dates — applicability. (1) Except as provided in subsection (2), [this act] is effective July 1, 1995, and applies to oil and gas production occurring after June 30, 1995.

(4) If the claimant meets the requirements of subsection (1) on any one owner-occupied residence, all other owner-occupied residences owned by the claimant that meet the requirements of subsection (1) are eligible for the payment, whether or not the owner-occupied residence was occupied by the owner for the required time. However, a claimant may elect a payment only for a single owner-occupied residence and the payment may not be made for a residence that was leased or rented for more than 5 months during the claim period.

Section 3. Homeowner's tax payment — filing date. (1) Except as provided in subsection (2), in order to receive payment, a claim for payment must be completed and must be submitted to the department by December 31 of the claim period or within 30 days of receiving a claim form, whichever is later.

Section 10. Section 15-7-102, MCA, is amended to read:

"15-7-102. Notice of classification and appraisal to owners — appeals. (1) *(a)* The department shall mail to each owner or purchaser under contract for deed a notice of the classification of the land owned or being purchased and the appraisal of the improvements on the land only if one or more of the following changes pertaining to the land or improvements have been made since the last notice:

~~(a)~~*(i)* change in ownership;

(iii) an estimate of the current year's taxes based on the prior year's mills; and

(iv) a statement that the notice is not a tax bill.

(c) Any misinformation provided in the information required by subsection (1)(b) does not affect the validity of the notice and may not be used as a basis for a challenge of the legality of the notice.

~~(2)~~ (a) The department shall assign each assessment to the correct owner or purchaser under contract for deed and mail the notice of classification and appraisal on a standardized form, adopted by the department, containing sufficient information in a comprehensible manner designed to fully inform the taxpayer as to the classification and appraisal of the property and of changes over the prior tax year.

(b) The notice must advise the taxpayer that in order to be eligible for a refund of taxes from an appeal of the classification or appraisal, the taxpayer is required to pay the taxes under protest as provided in 15-1-402.

(3) If the owner of any land and improvements is dissatisfied with the appraisal as it reflects the market value of the property as determined by the department or with the classification of the land or improvements, the owner may request an assessment review by submitting an objection in writing to the department, on forms provided by the department for that purpose, within 15 days after receiving the notice of classification and appraisal from the department. The review must be conducted informally and is not subject to the contested case procedures of the Montana Administrative Procedure Act. As a part of the review, the department may consider the actual selling price of the property, independent appraisals of the property, and other relevant information presented by the taxpayer in support of the taxpayer's opinion as to the market value of the property. The department shall give reasonable notice to the taxpayer of the time and place of the review. After the review, the department shall determine the ~~true and~~ correct appraisal and classification of the land or improvements and notify the taxpayer of its determination. (4) Whether a review as provided in subsection (3) is held or not, the department may not adjust an appraisal or classification upon the taxpayer's objection unless:

HeinOnline -- 1995 vol. IV 3343 1995

(a) the taxpayer has submitted an objection in writing; and

(b) the department has stated its reason in writing for making the adjustment.

(5) A taxpayer's written objection to a classification or appraisal and the department's notification to the taxpayer of its determination and the reason for that determination are public records. The department shall make the records available for inspection during regular office hours.

(6) If any property owner feels aggrieved by the classification or appraisal made by the department after the review provided for in subsection (3), the property owner has the right to first appeal to the county tax appeal board and then to the state tax appeal board, whose findings are final subject to the right of review in the courts. The appeal to the county tax appeal board must be filed within 15 days after notice of the department's determination is mailed to the taxpayer. A county tax appeal board or the state tax appeal board may consider the actual selling price of the property, independent appraisals of the property, and other relevant information presented by the taxpayer as evidence of the market value of the property. If the county tax appeal board or the state tax appeal board determines that an adjustment should be made, the department shall adjust the base value of the property in accordance with the board's order."

WHEREAS, the Legislature recognizes that trauma is the leading cause of death and disability for Montanans under 44 years of age and causes the loss of more years of human life than all other causes of death combined; and

WHEREAS, the death rate from injury in Montana is higher than the national norm, resulting in an economic loss to the state because of the productive years of life lost and the cost of treatment and rehabilitation; and

WHEREAS, organized systems of trauma care have been shown to reduce the number of deaths and disabilities resulting from trauma; and

WHEREAS, the people of the State of Montana would benefit from establishment and coordination of a statewide trauma care system.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 15-36-101, MCA, is amended to read:

"15-36-101. Definitions and rate of tax — state severance tax — local government severance tax — assessment of nonworking interest owner — exemption. (1) Every *Each* person ~~engaging in or carrying on the business of~~ produeing *who produces* petroleum, other mineral or crude oil, or natural gas within this state or ~~engaging in or carrying on the business of owning, controlling, managing, leasing, or operating~~ *who owns, controls, manages, leases, or operates* within this state any well or wells from which any ~~merchantable or~~ marketable petroleum, other mineral or crude oil, or natural gas is ~~extracted or~~ produced shall, except as provided in 15-36-121, ~~each year when engaged in or carrying on the business in this state~~ pay to the department of revenue a state severance tax for deposit in the *state* general fund, ~~of the state of~~ Montana plus a local government severance tax in lieu of a tax on net proceeds for replacement of property taxes formerly levied on net proceeds. Except as provided in subsection (3), the state severance tax and the local government severance tax are as follows:

(a) except as provided in subsections (1)(b) through (1)(f), a 5% state severance tax on the gross taxable value of all the petroleum and other mineral or crude oil produced by the person, plus the local government severance tax of 8.4% on the gross taxable value, as defined in subsection (8)(a)(ii), of all the petroleum and other mineral or crude oil produced by the person, other than new production, from each lease or unit; but in determining the amount of the state severance tax and local government severance tax, there must be excluded from consideration all petroleum or other crude or mineral oil produced and used by the person during the year in connection with the person's operations in prospecting for, developing, and producing the petroleum or crude or mineral oil;

(b) a 2.65% state severance tax on the gross taxable value of all natural gas produced by the person, plus the local government severance tax of 15.25% on the gross taxable value, as defined in subsection (8)(a)(ii), of all natural gas produced by the person, other than new production, from each lease or unit; but in determining the amount of the state severance tax and the local government severance tax, there must be excluded from consideration all gas produced and used by the person during the year in connection with the person's operations in prospecting for, developing, and producing the gas or petroleum or crude or mineral oil; and there must also be excluded from consideration all gas, including carbon dioxide gas, recycled or reinjected into the ground;

(c) except as provided in subsection (4)(a), a 3% state severance tax on the gross taxable value of the incremental production of petroleum and other mineral or crude oil produced from a secondary recovery project commenced or expanded after December 31, 1993, and before January 1, 2002, plus the local government severance tax of 5% on the gross taxable value, as defined in subsection (8)(a)(ii), of the incremental petroleum and other mineral or crude oil produced by the person, other than new production, from each lease or unit in a secondary recovery project commenced or expanded after December 31, 1993, and before January 1, 2002. For purposes of this section, a secondary recovery project must meet each of the following requirements:

(i) The project must be certified as a secondary recovery project to the department by the board. The certification may be extended only after notice and hearing in accordance with Title 2, chapter 4.

(ii) The property to be affected by the project must be adequately delineated according to the specifications required by the board.

(iii) The project must involve the application of secondary recovery methods that can reasonably be expected to result in an increase, determined by the board to be significant in light of all the facts and circumstances, in the amount of petroleum or mineral or crude oil that may potentially be recovered. For purposes of this section, secondary recovery methods include but are not limited to:

(A) the injection of water into the producing formation for the purposes of maintaining pressure in that formation or for the purpose of increasing the flow of petroleum or mineral or crude oil from the producing formation to a producing well bore; or

(B) any other method approved by the board as a secondary recovery method.

(d) a 2.5% state severance tax on the gross taxable value of the incremental petroleum and other mineral or crude oil produced by the person, plus the local government severance tax of 5% on the gross taxable value, as defined in subsection (8)(a)(ii), of the incremental petroleum and other mineral or crude oil produced by the person, other than new production, from each lease or unit in a tertiary recovery project after July 1, 1985. For purposes of this section, a tertiary recovery project must meet each of the following requirements:

(i) The project must be approved as a tertiary recovery project by the board of oil and gas conservation. The approval may be extended only after notice and hearing in accordance with Title 2, chapter 4.

(ii) The property to be affected by the project must be adequately delineated according to the specifications required by the board.

(iii) The project must involve the application of one or more tertiary recovery methods that can reasonably be expected to result in an increase, determined by the board to be significant in light of all the facts and circumstances, in the amount of crude oil that may potentially be recovered. For purposes of this section, tertiary recovery methods include but are not limited to:

(A) miscible fluid displacement;

HeinOnline -- 1995 vol. IV 3399 1995

(B) steam drive injection;

(C) micellar/emulsion flooding;

(D) in situ combustion;

(E) polymer augmented water flooding;

(F) cyclic steam injection;

(G) alkaline or caustic flooding;

(H) carbon dioxide water flooding;

(I) immiscible carbon dioxide displacement; or

(J) any other method approved by the board as a tertiary recovery method.

(e) except as provided in subsection (4)(b), a 2% state severance tax on the gross taxable value of the incremental petroleum and other mineral or crude oil produced by the person, plus the local government severance tax of 3.3% on the gross taxable value, as defined in subsection (8)(a)(ii), of the incremental petroleum and other mineral or crude oil produced by the person, other than new production, from each lease or unit in a tertiary recovery project commenced or expanded after December 31, 1993, and before January 1, 2002. The tertiary recovery project must meet the requirements of subsections (1)(d)(i) through (1)(d)(iii).

(f) a 5% local government severance tax on the gross taxable value, as defined in subsection (8)(a)(ii), of all petroleum and other mineral or crude oil produced by the person other than new production produced by a stripper well, as defined in subsection (9).

(2) For purposes of this section, the following definitions apply:

(a) "Board" means the board of oil and gas conservation.

(b) "Enhanced recovery project" means the use of any process for the displacement of oil from the earth other than primary recovery and includes the use of an immiscible, miscible, chemical, thermal, or biological process.

(c) "Existing enhanced recovery project" means an enhanced recovery project that began development before January 1, 1994.

(d) "Expanded enhanced recovery project" or "expansion" means the addition of injection wells or production wells, the change of injection pattern, or other operating changes to an existing enhanced recovery project that will result in the recovery of oil that would not otherwise be recovered.

(e) "Incremental production" means:

(i) the volume of oil produced by either a well in primary recovery recompleted as a horizontally completed well or by an expanded enhanced recovery project, which volume of production is in excess of the production decline rate established under the conditions existing before:

(A) the commencement of the recompletion of a well as a horizontally completed well;

(B) expansion of the existing enhanced recovery project; or

(C) commencing a new enhanced recovery project; or

(ii) in the case of any project that had no taxable production prior to commencing the enhanced recovery project, all production of petroleum or mineral or crude oil from the enhanced recovery project.

(f) "New enhanced recovery project" means an enhanced recovery project that began development after December 31, 1993, and before January 1, 2002.

(g) "Operator" or "producer" means the person responsible for the actual physical operation of an enhanced recovery project.

(h) "Primary recovery" means the displacement of oil from the earth into the well bore by means of the natural pressure of the oil reservoir and includes artificial lift.

(i) "Production decline rate" means the projected rate of future oil production, extrapolated by a method approved by the board, that must be determined for a project area prior to commencing a new or expanded secondary recovery project or the recompletion of a well as a horizontally completed well. The approved production decline rate must be certified in writing to the department of revenue by the board. In that certification, the board shall identify the project area and shall specify the projected rate of future oil production by calendar year and by calendar quarter within each year. The certified rate of future oil production must be used to determine the volume of incremental production that qualifies for the tax rate imposed under subsection (1)(c) or (1)(e).

(j) "Secondary recovery project" means an enhanced recovery project that is not a tertiary recovery project.

(k) "Tertiary recovery project" means an enhanced recovery project using a tertiary recovery method described in subsection (1)(d)(iii).

(3) (a) A local government severance tax is imposed on the gross value paid in cash or apportioned in kind to a nonworking interest owner by the operator or producer of extracted marketable petroleum, other mineral or crude oil, or natural gas subject to local government severance taxes imposed under this chapter. The local government severance tax on nonworking interest owners is computed at the following rates:

(i) 12.5% on the gross value paid in cash or apportioned in kind to a nonworking interest owner by the operator or producer of extracted marketable petroleum and other mineral or crude oil;

(ii) 15.25% on the gross value paid in cash or apportioned in kind to a nonworking interest owner by the operator or producer of extracted or marketable natural gas.

HeinOnline -- 1995 vol. IV 3401 1995

(b) The amounts paid or apportioned in kind to nonworking interest owners are exempt from the local government severance taxes imposed under 15-36-121~~(2)~~*(3)* and under subsections (1)(a) through (1)(f) of this section.

(4) (a) Incremental production from a secondary recovery project is subject to the tax rate imposed in subsection (1)(c) if the average price per barrel of oil as reported in the Wall Street Journal for west Texas intermediate crude oil during a calendar quarter is less than $30 a barrel. If the price of oil is equal to or greater than $30 per barrel in a calendar quarter as determined in subsection (5), incremental production from a secondary recovery project is taxed as provided in subsection (1)(a) for production occurring in that quarter.

(b) Incremental production from a tertiary recovery project is subject to the tax rate imposed in subsection (1)(e) if the average price per barrel of oil as reported in the Wall Street Journal for west Texas intermediate crude oil during a calendar quarter is less than $30 a barrel. If the price of oil is equal to or greater than $30 per barrel in a calendar quarter as determined in subsection (5), incremental production from a tertiary recovery project is taxed as provided in subsection (1)(d) for production occurring in that quarter.

(5) For the purposes of subsections (4)(a) and (4)(b), the average price per barrel must be computed by dividing the sum of the daily price for west Texas intermediate crude oil as reported in the Wall Street Journal for the calendar quarter by the number of days on which the price was reported in the quarter.

(6) Nothing in this part may be construed as requiring laborers or employees hired or employed by any person to drill any oil or natural gas well or to work in or about any oil or natural gas well or prospect or explore for or do any work for the purpose of developing any petroleum, other mineral or crude oil, or natural gas to pay the severance tax, nor may work done or the drilling of a well or wells for the purpose of prospecting or exploring for petroleum, other mineral or crude oil, or natural gas or for the purpose of developing them be considered to be the engaging in or carrying on of the business. If, in the doing of any work, in the drilling of any oil or natural gas well, or in prospecting, exploring, or development work, any merchantable or marketable petroleum, other mineral or crude oil, or natural gas in excess of the quantity required by the person for carrying on the operation is produced sufficient in quantity to justify the marketing of the petroleum, other mineral or crude oil, or natural gas, the work, drilling, prospecting, exploring, or development work is considered to be the engaging in and carrying on of the business of producing petroleum, other mineral or crude oil, or natural gas within this state within the meaning of this section.

(7) Every person required to pay the state or local government severance tax under this section shall pay the tax in full for the person's own account and for the account of each of the other owners of the gross proceeds in value or in kind of all the marketable petroleum or other mineral or crude oil or natural gas extracted and produced, including an owner or owners of working interest, royalty interest, overriding royalty interest, carried working interest, net proceeds interest, production payments, and all other interest or interests owned or carved out of the total gross proceeds in value or in kind of the extracted marketable petroleum or other mineral or crude oil or natural gas, except that any of the interests that are owned by the federal, state, county, or municipal governments are exempt from taxation under this chapter. Unless otherwise

HeinOnline -- 1995 vol. IV 3402 1995

provided in a contract or lease, the pro rata share of any royalty owner or owners will be deducted from any settlements under the lease or leases or division of proceeds orders or other contracts.

(8) For purposes of this section, the following definitions apply:

(a) (i) "Gross taxable value", for the purpose of computing the state severance tax, means the gross value of the product as determined in 15-36-103.

(ii) "Gross taxable value", for the purpose of computing the local government severance tax, means the gross value of the product as determined in 15-36-103 less the gross value paid in cash or apportioned in kind to a nonworking interest owner by the operator or producer of extracted marketable petroleum, other mineral or crude oil, or natural gas.

(b) "Nonworking interest owner" means any interest owner who does not share in the development and operation costs of the lease or unit.

(9) For the purposes of this section, "stripper well" means a well that produces less than 10 barrels a day, determined by dividing the amount of production from a lease or unitized area for the year prior to the current calendar year by the number of producing wells in the lease or unitized area and by dividing the resulting quotient by 365."

Section 2. Section 15-36-121, MCA, is amended to read:

"15-36-121. Exemption from state severance tax — imposition of local government severance tax. (1) It is the public policy of this state to promote a sufficient supply of natural gas to provide for the residents of this state, to lessen Montana's dependence on imported natural gas, and to encourage the exploration for and development and production of natural gas, petroleum, and other mineral and crude oil within the state.

(2) All production of natural gas, petroleum, or other mineral or crude oil from a well that was drilled after March 31, 1995, or from a well that has not produced natural gas, petroleum, or other mineral or crude oil during the 5 years immediately preceding the first month of qualified production is exempt from all of the state severance tax imposed by 15-36-101 during the 24 months immediately following the date of notification to the department of revenue that an oil well is flowing or being pumped or that a gas well has been connected to a gathering or distribution system.

~~(2)~~*(3)* All the natural gas produced from any *a* well that has produced 60,000 cubic feet or less of natural gas a day for the calendar year prior to the current year ~~shall be~~ *is* taxed as provided in this section. ~~Production must be~~ *Average daily production is* determined by dividing the amount of production from a lease or unitized area for the year ~~prior to~~ *immediately preceding* the current calendar year by the number of producing wells in the lease or unitized area and by dividing the resulting quotient by 365. The first 30,000 cubic feet of average daily production ~~per~~ *for each* well is exempt from all of the state severance tax imposed by 15-36-101. The first 30,000 cubic feet of average daily production per *for each* well is subject to a local government severance tax of 10% on the gross taxable value, as defined in 15-36-101(6)(a)(ii). Everything over *Natural gas production in excess of* 30,000 cubic feet ~~of gas produced~~ is taxed at 1.59% on the gross taxable value for the state severance tax plus a local

government severance tax of 10% on the gross taxable value, as defined in 15-36-101~~(6)(a)(ii)~~*(8)(a)(ii)*.

~~(3)~~*(4)* Notwithstanding the provisions of subsection *subsections* (2) *and (3)*, all reporting requirements under the state severance tax remain in effect."

Section 3. Coordination instruction. If Senate Bill No. 412 is passed and approved, then Senate Bill No. 412 is amended as provided in subsections (1) and (2) of this section and the distribution of revenue must be modified as provided in subsection (3) of this section. (d) relevant indications of anticipated land use from the owner of the facility and local planning officials.

~~(11)~~*(12)* "Release" means any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing of a hazardous or deleterious substance directly into the environment (including the abandonment or discarding of barrels, containers, and other closed receptacles containing any hazardous or deleterious substance), but excludes releases confined to the indoor workplace environment, the use of pesticides as defined in 80-8-102(30) when they are applied in accordance with approved federal and state labels, and the use of commercial fertilizers as defined in 80-10-101(2) when applied as part of accepted agricultural practice.

~~(12)~~*(13)* "Remedial action" includes all notification, investigation, administration, monitoring, cleanup, restoration, mitigation, abatement, removal, replacement, acquisition, enforcement, legal action, health studies, feasibility studies, and other actions necessary or appropriate to respond to a release or threatened release.

~~(13)~~*(14)* "Remedial action contract" means a written contract or agreement entered into by a remedial action contractor with the state, or with a potentially liable person acting pursuant to an order or request issued by the department, the United States, or any federal agency, to provide a remedial action with respect to a release or threatened release of a hazardous or deleterious substance.

~~(14)~~*(15)* "Remedial action contractor" means:

(a) any person who enters into and is carrying out a remedial action contract; or

(b) any person who is retained or hired by a person described in subsection ~~(14)(a)~~ *(15)(a)* to provide services relating to a remedial action.

~~(15)~~*(16)* "Remedial action costs" means reasonable costs that are attributable to or associated with a remedial action at a facility, including but not limited to the costs of administration, investigation, legal or enforcement activities, contracts, feasibility studies, or health studies."

Section 2. Section 75-10-721, MCA, is amended to read:

"75-10-721. Degree of cleanup required — permit exemption — financial assurance. (1) A remedial action performed under this part *or a*

voluntary cleanup under [sections 4 through 12] must attain a degree of cleanup of the hazardous or deleterious substance and control of a threatened release or further release of that substance that assures ~~present and future~~ protection of public health, safety, and welfare and of the environment.

(2) In approving or carrying out remedial actions performed under this part, the department:

~~(a) shall require cleanup consistent with applicable state or federal environmental requirements, criteria, or limitations;~~

~~(b) shall consider and may require cleanup consistent with substantive state or federal environmental requirements, criteria, or limitations that are well suited to the site conditions; and~~

~~(c) shall select remedial actions that, at a minimum, protect public health, safety, and welfare and the environment and that:~~

~~(i) use permanent solutions;~~

~~(ii) use alternative treatment technologies or resource recovery technologies to the maximum extent practicable; and~~

~~(iii) are cost effective, taking into account the total short and long term costs of the actions, including the cost of operation and maintenance activities for the entire period during which the activities will be required.~~

(a) except as provided in subsection (4), shall require cleanup consistent with applicable state or federal environmental requirements, criteria, or limitations;

(b) may consider substantive state or federal environmental requirements, criteria, or limitations that are relevant to the site conditions; and

(c) shall select remedial actions, considering present and reasonably anticipated future uses, that:

(i) demonstrate acceptable mitigation of exposure to risks to the public health, safety, and welfare and the environment;

(ii) are effective and reliable in the short term and the long term;

(iii) are technically practicable and implementable;

(iv) use treatment technologies or resource recovery technologies if practicable, giving due consideration to institutional and engineering controls; and

(v) are cost-effective.

(3) In selecting remedial actions, the department shall consider the acceptability of the actions to the affected community, as indicated by community members and the local government.

(4) The department may select a remedial action that does not meet an applicable state environmental requirement, criteria, or limitation under any one of the following circumstances:

(a) The remedial action is an interim measure and will become part of a total remedial action that will attain the applicable requirement, criteria, or limitation.

(b) Compliance with the applicable requirement, criteria, or limitation will result in greater risk to human health and the environment than other remedial action alternatives.

(c) Compliance with the applicable requirement, criteria, or limitation is technically impracticable from an engineering perspective.

(d) The remedial action will attain a standard of performance that is equivalent to that required under the otherwise applicable requirement, criteria, or limitation through use of another method or approach.

(e) Compliance with the requirement would not be cost-effective.

(5) For purposes of this section, cost-effectiveness must be determined through an analysis of incremental costs and incremental risk reduction and other benefits of alternatives considered, taking into account the total anticipated short-term and long-term costs of remedial action alternatives considered, including the total anticipated cost of operation and maintenance activities.

~~(3)~~*(6)* The department may exempt any portion of a remedial action that is conducted entirely on site from a state or local permit that would, in the absence of the remedial action, be required if the remedial action is carried out in accordance with the standards established under subsection ~~(1)~~ *this section* and this part.

~~(4)~~*(7)* The department may require financial assurance from a liable person in an amount that the department determines will ensure the long-term operation and maintenance of the remedial action site. The liable person shall provide the financial assurance by any one method or combination of methods satisfactory to the department, including but not limited to insurance, guarantee, performance or other surety bond, letter of credit, qualification as a self-insurer, or other demonstration of financial capability."

Section 3. Section 75-10-722, MCA, is amended to read:

"75-10-722. Payment of state costs and penalties. (1) The department shall keep a record of the state's remedial action costs.

(2) Based on this record, the department shall *may* require a person liable under 75-10-715 to pay the amount of the state's remedial action costs and, if applicable, penalties under 75-10-715(3).

(3) If the state's remedial action costs and penalties are not paid by the liable person to the department within 60 days after receipt of notice that the costs and penalties are due, the department shall bring an action in the name of the state to recover the amount owed plus reasonable legal expenses.

(4) An action to recover remedial action costs may be brought under this section at any time after any remedial action costs have been incurred, and the court may enter a declaratory judgment on liability for remedial action costs that is binding on any subsequent action or actions to recover further remedial action costs. The court may disallow costs or damages only if the person liable

HeinOnline -- 1995 vol. IV 3423 1995

under 75-10-715 can show on the record that the costs are not reasonable and are not consistent with this part.

(5) An initial action for recovery of remedial action costs must be commenced within 6 years after initiation of physical onsite construction of the remedial action.

(6) Remedial action costs and any penalties recovered by the state under 75-10-715 must be deposited into the environmental quality protection fund established in 75-10-704."

Section 4. Short title. [Sections 4 through 12] may be cited as the "Voluntary Cleanup and Redevelopment Act".

Section 5. Purpose — legislative declaration. (1) (a) The purposes of [sections 4 through 12] are to provide for the protection of the public health, welfare, and safety and of the environment and to foster the cleanup, transfer, reuse, or redevelopment of facilities where releases or threatened releases of hazardous or deleterious substances exist.

(b) The legislature further declares that this program is intended to permit and encourage voluntary cleanup of facilities where releases or threatened releases of hazardous or deleterious substances exist by providing interested persons with a method of determining what the cleanup responsibilities will be for reuse or redevelopment of existing facilities.

(2) The legislature further intends that this voluntary program:

(a) encourage and facilitate prompt cleanup activities;

(b) eliminate impediments to the sale or redevelopment of facilities where releases or threatened releases of hazardous or deleterious substances exist; and

(c) minimize administrative processes and costs.

Section 6. Eligibility. (1) A facility where there has been a release or threatened release of a hazardous or deleterious substance that may present an imminent and substantial endangerment to the public health, safety, or welfare or the environment may be eligible for voluntary cleanup procedures under this part, except for facilities that meet one of the following criteria at the time of application for a voluntary cleanup plan:

(a) a facility that is listed or proposed for listing on the national priorities list pursuant to 42 U.S.C. 9601, et seq.;

(b) a facility for which an order has been issued or consent decree has been entered into pursuant to this part;

(c) a facility that is the subject of an agency order or an action filed in district court by any state agency that addresses the release or threatened release of a hazardous or deleterious substance; or

(d) a facility where the release or threatened release of a hazardous or deleterious substance is regulated by the Montana Hazardous Waste and Underground Storage Tank Act and regulations under that act; or

HeinOnline -- 1995 vol. IV 3424 1995

(e) a facility that is the subject of pending action under this part because the facility has been issued a notice commencing a specified period of negotiations on an administrative order on consent.

(2) Notwithstanding the provisions of subsections (1)(b) through (1)(e), the department may agree to accept and may approve an application for a voluntary cleanup plan for a facility.

(3) The department may determine that a facility that is potentially eligible for voluntary cleanup exhibits complexities regarding protection of public health, safety, and welfare and the environment and that the complexities should be addressed under an administrative order or consent decree pursuant to this part. This determination may be made only after consultation with any person desiring to conduct a voluntary cleanup at the facility.

(4) If an applicant that submits an application for a voluntary cleanup plan disagrees with the department's decision to reject the filing of the application under subsection (1) or (3), the applicant may, within 30 days of receipt of the department's written decision pursuant to [section 10], submit a written request for a hearing before the board of health and environmental sciences. In reviewing a department decision to reject an application under subsection (1) or (3), the board shall apply the standards of review specified in 2-4-704. The hearing must be held within 2 months at the regular meeting of the board or at the time mutually agreed to hy the board, the department, and the applicant. The hearing and any appeals must be conducted in accordance with the contested case proceedings pursuant to Title 2, chapter 4, parts 6 and 7. A hearing before the board may not be requested regarding a decision of the department made pursuant to subsection (2).

Section 7. Voluntary cleanup plan and reimbursement of remedial action costs. (1) Any person may submit an application for the approval of a voluntary cleanup plan to the department under the provisions of this section.

(2) A voluntary cleanup plan must include:

(a) an environmental assessment of the facility that includes the information required in [section 8];

(b) a remediation proposal that includes the information required in [section 8] and that meets the requirements of 75-10-721; and

(c) the written consent of current owners of the facility or property to both the implementation of the voluntary cleanup plan and access to the facility by the applicant and its agents and the department.

(3) The applicant shall reimburse the department for any remedial action costs that the state incurs in the review and oversight of a voluntary cleanup plan.

(4) The department may approve a voluntary cleanup plan that provides for phases of remediation or that addresses only a portion of the facility. To the extent that the original environmental assessment required under [section 8] addresses subsequent phases of remediation, the applicant may rely on that assessment when submitting voluntary cleanup plans for subsequent phases of remediation.

HeinOnline -- 1995 vol. IV 3425 1995

Section 8. Voluntary cleanup plans — requirements. (1) The department may only accept voluntary cleanup plans under [sections 4 through 12] that are prepared by a qualified environmental professional. A qualified environmental professional is a person with education, training, and experience in preparing environmental studies and assessments.

(2) An environmental assessment described in this section must include the following information:

(a) the legal description of the facility and a map identifying the location and size of the facility and relevant features, such as property boundaries, surface topography, surface and subsurface structures, and utility lines;

(b) the physical characteristics of tbe facility and areas contiguous to the facility, including the location of any surface water bodies and ground water aquifers;

(c) the location of any wells located on the site or on areas within a one-half mile radius of the site and a description of the use of those wells;

(d) the current and reasonably anticipated future use of onsite ground and surface water;

(e) the operational history of the facility, including ownership, and the current use of the facility, including any readily available aerial photographs from within the state of Montana;

(f) the current and reasonably anticipated future uses of the facility and immediately adjacent properties;

(g) information on the methods and results of investigations concerning the nature and extent of any releases or threatened releases of hazardous or deleterious substances that have occurred at the facility and a map showing general areas and concentrations of bazardous or deleterious substances;

(h) any sampling results or other data that characterizes the soil, air, ground water, or surface water on the site;

(i) a description of the human and environmental exposure to releases or threatened releases of hazardous or deleterious substances at the facility based upon tbe current use of the facility and adjacent properties and any reasonably anticipated future uses of the facility; and

(j) readily available information on the environmental regulatory and compliance history of the facility, including all environmental permits.

(3) A remediation proposal must include the following information:

(a) a detailed description of the components of the remediation proposal, including, to the extent applicable:

(i) the proposed cleanup levels for the facility;

(ii) the manner in which the remediation plan satisfies the cleanup requirements of 75-10-721;

(iii) identification of sampling or treatability studies; and

(iv) a demonstration that exposures to risk affecting the public health, safety, and welfare and the environment at the facility will be substantially mitigated by the plan;

(b) a brief comparison of the remediation proposal to reasonable alternatives based on the remedy selection criteria specified in 75-10-721;

(c) a timetable for implementing the proposal and for any necessary monitoring of the facility after the proposed measures are completed;

(d) a statement that applicable health and safety regulations will be met during implementation of the remediation proposal;

(e) a description of how short-term disturbances during implementation of the remediation proposal will be minimized; and

(f) identification of any permits necessary to conduct the proposed remedies.

Section 9. Public participation. (1) Upon determination by the department that an application for a voluntary cleanup plan is complete pursuant to [section 10(1)], the department shall publish a notice and brief analysis of the proposed plan in a daily newspaper of general circulation in the area affected and make the plan available to the public.

(2) The notice must provide 30 days for submission of written comments to the department regarding the plan. Upon written request by 10 or more persons, by a group composed of 10 or more members, or by a local governing body of a city, town, or county within the comment period, the department shall conduct a public meeting at or near the facility regarding the proposed voluntary cleanup plan. The meeting must be held within 45 days of the department's completeness determination under [section 10(1)].

(3) The department shall consider and respond to relevant written or verbal comments submitted during the comment period or at the public meeting.

(4) The department's decision on the final plan and the reasons for any significant modification of the final plan must be published in accordance with subsection (1).

(5) Compliance with this section is considered to satisfy the public participation requirements of Title 75, chapter 1.

Section 10. Approval of voluntary cleanup plan — time limits — content of notice — expiration of approval. (1) The department shall review for completeness, including adequacy and accuracy, an application for a voluntary cleanup plan and shall provide a written completeness notice to the applicant within 30 days after receipt of the application. The completeness notice must note all deficiencies identified in the information submitted.

(2) For a voluntary cleanup plan that is considered complete by the department pursuant to subsection (1), the department shall provide formal written notification that the voluntary cleanup plan has been approved or disapproved no more than 60 days after the department's determination that an application is complete, unless the applicant and the department agree to an extension of the review to a date certain. The review must be limited to a review of the materials submitted by the applicant, public comments, and documents

HeinOnline -- 1995 vol. IV 3427 1995

or information readily available to the department. The department shall communicate with the applicant during the review period to ensure that the applicant has the opportunity to address the public comments.

(3) (a) If the department receives five applications for review of a voluntary cleanup plan in a calendar month, including applications deferred from prior months, the department may notify any additional applicants in that month that their plans must be reviewed in the order received. The 30-day period for department completeness review of deferred applications pursuant to subsection (1) must begin on the first day of the subsequent month that each plan is eligible for review.

(b) The department shall discontinue accepting voluntary cleanup applications when 15 applications are pending and are being reviewed by the department. The department shall establish a waiting list for applications and shall consider the applications in order of submittal.

(c) If the department has received multiple cleanup applications for a voluntary cleanup at the same facility, the department shall notify all of the applicants and offer them the opportunity to submit a joint application.

(4) Consistent with the provisions of 75-10-707, the department may access the facility during review of the application and implementation of the voluntary cleanup plan to confirm information provided by the applicant and verify that the cleanup is being conducted consistent with the approved plan.

(5) The department shall approve a voluntary cleanup plan if the department concludes that the plan meets the requirements specified in [section 8] and will attain a degree of cleanup and control of hazardous or deleterious substances that complies with the requirements of 75-10-721. Except for the period necessary for the operation and maintenance of the approved remediation proposal, the department may not approve a voluntary remediation proposal that would take longer than 24 months after department approval to complete.

(6) If a voluntary cleanup plan is not approved by the department, the department shall promptly provide the applicant with a written statement of the reasons for denial.

(7) The approval of a voluntary cleanup plan by the department applies only to conditions at the facility that are known to the department at the time of department approval. If a voluntary remediation proposal is not initiated within 12 months and, except for the period necessary for the operation and maintenance of the approved remediation proposal, is not completed within 24 months after approval by the department, the department's approval lapses. However, the department may grant an extension of the time limit for completion of the voluntary cleanup plan.

(8) If reasonably unforeseeable conditions are discovered during implementation of a voluntary cleanup plan that substantially affect the risk to public health, safety, or welfare or the environment or substantially change the scope of the approved plan, the applicant shall promptly notify the department. The department may require the applicant to submit an amendment to the

HeinOnline -- 1995 vol. IV 3428 1995

approved plan to address the unforeseen conditions or may determine that a voluntary cleanup plan is no longer appropriate pursuant to [section 6(3)].

(9) Written notification by the department that a voluntary cleanup plan is not approved must state the basis for disapproval of the voluntary cleanup plan.

(10) (a) Failure of the applicant or the applicant's agents to materially comply with the voluntary cleanup plan approved by the department pursuant to this section renders the approval void.

(b) Submission of materially misleading information by the applicant or the applicant's agents in the application or during implementation of the voluntary cleanup plan renders the department approval void.

(11) Within 60 days after completion of the approved remediation proposal described in the voluntary cleanup plan approved hy the department, the applicant shall provide to the department a certification from a qualified environmental professional that the plan has been fully implemented, including all documentation necessary to demonstrate the successful implementation of the plan, such as confirmation sampling, if necessary.

(12) Except as provided in [section 12(2)(b)], the department may not require financial assurance under this part for voluntary cleanup plans approved under this section.

(13) If a person who would otherwise not be a liable person under 75-10-715(1) elects to undertake an approved voluntary cleanup plan, the person may not become a liable person under 75-10-715(1) by undertaking a voluntary cleanup if the person materially complies with the voluntary cleanup plan approved by the department pursuant to this section.

(14) Immunity from liability under this section does not apply to a release that is caused by conduct that is negligent or grossly negligent or that constitutes intentional misconduct.

Section 11. Voluntary action to preclude remedial action by department. If a party has elected to undertake an approved voluntary cleanup and is diligently proceeding to implement the plan, the department may not, except as provided in 75-10-712, take remedial action under 75-10-711 with regard to those releases or threatened releases of hazardous or deleterious substances that are addressed by the approved voluntary cleanup plan.

Section 12. Closure. (1) After completion of the voluntary cleanup plan, an applicant may petition the department for closure of the facility under [sections 4 through 12].

(2) Within 60 days of receipt of a petition for closure, weather permitting, the department shall conduct a review to determine that the releases or threatened releases addressed in the voluntary cleanup plan do not pose a significant threat to public health, welfare, or safety or to the environment as determined in accordance with 75-10-721 and that the applicant has:

(a) implemented all appropriate remedial actions;

(b) if necessary, provided for long-term funding for facility maintenance or monitoring; and

HeinOnline -- 1995 vol. IV 3429 1995

(c) reimbursed the department for all remedial action costs of the voluntary cleanup.

(3) In the event that the petition for closure is not approved by the department, the department shall promptly provide the applicant with a written statement of the reasons for denial. Written notification that the petition is approved by the department must include the following language:

"Based upon the information provided by [insert name(s) of applicant(s)] concerning property located at [insert address], it is the opinion of the Montana Department of Health and Environmental Sciences that upon completion of the voluntary cleanup plan, no further action is required to ensure that this facility, when used for [insert purposes identified], is protective of existing and proposed uses and does not pose a significant risk to public health, safety, or welfare or the environment at the facility with regard to releases or threatened releases addressed in the voluntary cleanup plan. The department reserves the right to conduct or require further remedial action at this facility if a new release occurs or if the department receives new or different information than presented in the approved voluntary cleanup plan."

(4) After completion of a portion of a facility addressed in the voluntary cleanup plan, the department shall issue a letter of completion notice to the applicant if the department determines that the applicant has satisfied the requirements of subsection (2).

Section 13. Study process. The department of health and environmental sciences, with legislative oversight from the environmental quality council, shall institute a collaborative process involving all affected and interested parties that specifically analyzes the elimination of joint and several liability with respect to cleanup of state CECRA sites and any related funding necessary to clean up state CECRA sites as a result of eliminating joint and several liability. The department of health and environmental sciences shall submit a report and legislative proposals that collaboratively resulted from that process to the 55th legislature.

Section 14. Short title. [Sections 14 through 20] may be cited as the "Mixed Funding Pilot Program".

Section 15. Purpose — legislative declaration. (1) The purposes of [sections 14 through 20] are to establish a pilot remediation program to operate in conjunction with the voluntary cleanup program provided for in [sections 4 through 12] and to provide information during the 2-year study process in [section 13].

(2) The legislature further intends that the pilot program provide necessary data related to:

(a) actual costs incurred in the remediation of facilities;

(b) the costs associated with the elimination of joint and several liability;

(c) the potential use of resource indemnity trust fund money in remediating facilities;

(d) the feasibility of voluntary cleanup plans; and

(e) the coordination between an applicant and the department in the use of voluntary cleanup programs.

Section 16. Criteria. (1) The pilot program must consist of remediation of three sites from the department of state lands' abandoned hard-rock mine priority list. The three sites must be selected from the top ten priority sites on that list as of April 1, 1995.

(2) Any site remediated under this pilot program must meet the following criteria:

(a) The owner of the property has, prior to May 22, 1989, purchased or entered into a lease purchase agreement or an option to purchase property where the facility is located.

(b) The applicant has submitted a voluntary cleanup plan in accordance with the provisions of [sections 7 and 8].

(c) The department has accepted and approved the application for a voluntary cleanup plan in accordance with the provisions of [sections 6 through 10].

(3) The department and the applicant shall negotiate an apportionment of the applicant's liability pursuant to [section 17]. The department, as a trier of fact, shall make the final determination of the applicant's apportioned liability. If the applicant disagrees with the department's determination of the applicant's proportionate share of liability, the applicant may appeal the department's decision in accordance with the requirements of [section 6(4)].

(4) If more than three applicants submit voluntary cleanup plans for the highest priority sites on the department of state lands' abandoned hard-rock mine priority list and the department approves more than three plans, the department shall select three plans to incorporate into the pilot program on a priority basis as determined by the date of submittal of a complete application.

Section 17. Mixed funding — determination of liability. (1) An applicant who satisfies the requirements of [section 16(2)] shall meet with the department within 30 days of approval of the voluntary cleanup plan to negotiate an apportionment of liability for the site. The burden is on the applicant to show how the applicant's liability should be apportioned. In apportioning the liability of the applicant under this section, the department shall balance all of the following factors:

(a) the extent to which the applicant caused the release of the hazardous or deleterious substance;

(b) the extent to which an applicant's contribution to the release of a hazardous or deleterious substance can be diminished;

(c) the amount of the hazardous or deleterious substance involved;

(d) the degree of toxicity of the hazardous or deleterious substance involved;

(e) the degree of involvement of and care exercised by the applicant in manufacturing, treating, transporting, or disposing of the hazardous or deleterious substance;

HeinOnline -- 1995 vol. IV 3431 1995

(f) the degree of cooperation by the applicant with state or local officials to prevent any harm to the public health, safety, or welfare or to the environment; and

(g) the applicant's knowledge of the hazardous nature of the substance.

(2) Once the department and the applicant have negotiated an apportionment of the applicant's liability, the applicant has a right of reimbursement subject to the requirements and limitations of [section 18].

Section 18. Claims for and limitations on reimbursement. (1) After completion of the voluntary cleanup plan approved by the department, the applicant may apply to and must, in accordance with this section, receive reimbursement from the abandoned mines state special revenue account. Reimbursement must be subject to the following requirements and limitations:

(a) The applicant shall complete remediation prior to making a claim for reimbursement.

(b) The reimbursement may not exceed 90% of eligible costs up to a maximum of $300,000 per facility.

(c) The claim for reimbursement may not include legal fees or department costs incurred in the oversight of the voluntary cleanup plan.

(2) For purposes of this section, "eligible costs" means costs in excess of an applicant's proportionate share of total costs incurred in the remediation of the site during the 1996-97 biennium.

(3) If costs are reimbursed out of the abandoned mines state special revenue account, nothing in [sections 14 through 20] prohibits the department from pursuing an action against other potentially liable parties to recover those costs.

(4) If the abandoned mines state special revenue account does not contain sufficient money to pay received claims for reimbursement, the abandoned mines state special revenue account and the department are not liable for making any reimbursement at that time. All claims are subject to appropriations to the abandoned mines state special revenue account.

Section 19. Abandoned mines state special revenue account created. (1) There is an abandoned mines state special revenue account within the state special revenue account fund established in 17-2-102.

(2) There must be paid into the abandoned mines state special revenue account money allocated from the metalliferous mines license tax pursuant to 15-37-117.

(3) Deposits to the abandoned mines state special revenue account must be placed in short-term investments. The interest on short-term investments must be deposited in the abandoned mines state special revenue account.

(4) The purpose of the abandoned mines state special revenue account is to provide the funding to the department of health and environmental sciences for the cleanup and reclamation of sites eligible for the pilot program in [sections 14 through 20].

HeinOnline -- 1995 vol. IV 3432 1995

Section 20. Incorporation into study process — report to legislature. The department of health and environmental sciences and applicants participating in the pilot program shall submit reports to the 55th legislature detailing the success of and difficulties with the operation of the pilot program.

Section 21. Section 15-37-117, MCA, is amended to read:

"15-37-117. Disposition of metalliferous mines license taxes. (1) Metalliferous mines license taxes collected under the provisions of this part must, in accordance with the provisions of 15-1-501(6), be allocated as follows:

(a) to the credit of the general fund of the state, 58% of total collections each year;

(b) to the state special revenue fund to the credit of a hard-rock mining impact trust account, 1.5% of total collections each year;

(c) ~~to the state resource indemnity trust fund, 15.5%~~ *to the abandoned mines state special revenue account provided for in [section 19], 8.5%* of total collections each year;

(d) to the county or counties identified as experiencing fiscal and economic impacts, resulting in increased employment or local government costs, under an impact plan for a large-scale mineral development prepared and approved pursuant to 90-6-307, in direct proportion to the fiscal and economic impacts determined in the plan or, if an impact plan has not been prepared, to the county in which the mine is located, 25% of total collections each year, to be allocated by the county commissioners as follows:

(i) not less than 40% to the county hard-rock mine trust reserve account established in 7-6-2225; and

(ii) all money not allocated to the account pursuant to subsection (1)(d)(i) to be further allocated as follows:

(A) 33 1/3% is allocated to the county for planning or economic development activities;

(B) 33 1/3% is allocated to the elementary school districts within the county that have been affected by the development or operation of the metal mine; and

(C) 33 1/3% is allocated to the high school districts within the county that have been affected by the development or operation of the metal mine.

(2) When an impact plan for a large-scale mineral development approved pursuant to 90-6-307 identifies a jurisdictional revenue disparity, the county shall distribute the proceeds allocated under subsection (1)(d) in a manner similar to that provided for property tax sharing under Title 90, chapter 6, part 4.

(3) The department shall return to the county in which metals are produced the tax collections allocated under subsection (1)(d). The allocation to the county described by subsection (1)(d) is a statutory appropriation pursuant to 17-7-502."

HeinOnline -- 1995 vol. IV 3433 1995

Section 22. Coordination instruction. If House Bill No. 569 and [this act] are both passed and approved, the amendment to 15-37-117(1)(c) in House Bill No. 569, relating to the percentage allocation to the resource indemnity trust fund, is void.

Section 23. Severability. If a part of [this act] is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of [this act] is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.

Section 24. Codification instructions. [Sections 4 through 12] are intended to be codified as an integral part of Title 75, chapter 10, part 7, and the provisions of Title 75, chapter 10, part 7, apply to [sections 4 through 12].

Section 25. Applicability. (1) [This act] does not apply to civil actions commenced or begun prior to [the effective date of this act] or to claims based on those actions.

(2) [Sections 4 through 12] apply after January 1, 2001, to voluntary cleanup plans approved by the department of health and environmental sciences between [the effective date of this act] and January 1, 2001.
